Fund Objective

The Fund aims to achieve capital growth for investors over the medium to longer term.

Investment Strategy

The Fund will seek to achieve its objective through investments primarily in a range of global bonds and equities, through shares and units of collective investment schemes (such as unit trusts and OEICs, both regulated and unregulated), but also through closed-ended schemes. Foreign currency exposure may be hedged back into pounds sterling. The Fund may also invest, at the ACD's discretion, in other transferable securities, money market instruments, cash and near cash and deposits. The portfolio will be actively managed and the Fund may hold derivatives for investment purposes as well as for efficient portfolio management purposes (including hedging). Borrowing will be permitted up to the levels stated in the Regulations.

Portfolio Managers

Bish Limbu, a CFA charterholder, joined Octopus in 2008 and now looks after the UK equity, distribution, balanced and absolute return strategies. Previously he worked as a fund analyst for Bestinvest Brokers and was a member of the multi manager team at Barclays Wealth. Bish graduated with a BA Honours in Engineering and Computing Science from Oxford University.

blimbu@octopusinvestments.com

Simon Reynolds, an ASIP member of the UK Society of Investment Professionals, began his career as an investment consultant with Mercer and went on to run multi manager portfolios for AXA and Barclays Wealth. Simon moved to Australia in 2005 and spent six years looking after multi manager portfolios for ipac. He joined Octopus on his return to the UK. Simon has a BA Honours in Economics & Management Studies from the University of Leeds.

sreynolds@octopusinvestments.com

Danial Azmayesh, a CFA charterholder, was a member of the implementations team behind the launch of Octopus Portfolio Manager in 2010, by which time he had already been with the company for two years. He developed a number of tools to help advisers and then joined the team as a fund analyst in 2012. Dan has a BSc in Mathematics from King's College London.

Registered in England and Wales No. 03942880. Telephone calls are recorded. CAM008257. Issued: May 2019.

Glossary

Asset allocation

This describes the allocation of the portfolio's assets according to geographical region, sector or type of security.

Authorised Corporate Director (ACD)

The term used to describe the manager of an Open Ended Investment Company (OEIC). An ACD has the same role and responsibilities as their unit trust equivalents, known as a fund manager.

Bonds

A loan in the form of a security, either issued by a UK or overseas government (government bonds) or company (corporate bonds), which pays a fixed rate of interest over a given time period, at the end of which the initial amount borrowed is repaid.

Closed-ended fund

A closed-ended fund, such as an investment trust, has a fixed number of shares and is structured in a similar way to a company.

Equities

Shares of ownership in a company.

Hedging

Making an investment to reduce the risk of adverse price movement in an asset. Normally, a hedge consists of taking an offsetting position in a related security, such as a futures contract.

Total Expense Ratio

The total cost of investing in a fund, expressed as a percentage of the value of your investment. It is more common nowadays to look at the 'Ongoing charges figure', which you will find in the 'Key Investor Information Document'.
