¹ NAV per share is calculated on the underlying assets less liabilities of the Company divided by the number of shares, refer to page 26 for commentary on the movement.

² Total return is an alternative performance measure calculated as movement in NAV per share in the period plus dividends paid in the period, divided by the NAV per share at the beginning of the period, as described in the glossary of terms.

³ Subject to shareholder approval at the Annual General Meeting, the proposed final dividend will be paid on 29 May 2026 to shareholders on the register on 1 May 2026.

⁴ The Board has declared a special dividend of 3.6p, to be paid on 1 April 2026 to shareholders on the register on 13 March 2026.

⁵ Ongoing charges is an alternative performance measure calculated using the AIC recommended methodology, refer to page 27 for commentary on the movement.

⁶ Octopus AIM VCT 2 plc was launched in March 2006.

Celebrating AIM's 30th anniversary

In this year's Annual Report, we are commemorating the 30th anniversary of the FTSE AIM. This is an important milestone and one on which we should recognise the significant contribution of AIM to supporting innovative, fast-growing UK businesses. Over the past three decades, AIM has successfully helped ambitious companies access long-term capital to grow their operations. The Company has played a significant role in this by backing high-potential growth businesses that have helped shape the market's development.

Providing long term growth capital across the UK¹

Chair’s statement

Introduction

The year to 30 November 2025 was shaped by ongoing global uncertainty, yet the UK economy proved resilient. UK inflation continued its steady fall toward the Bank of England’s target, and three interest rate cuts during the year helped bolster confidence across financial markets. Despite the impact of geopolitical upsets, domestic growth proved stronger than expected, and consumer and business sentiment improved accordingly. Encouragingly, equity markets performed well overall, with UK valuations continuing to draw interest from strategic and private equity buyers, particularly among smaller growth companies on AIM where valuations remained at historic lows throughout the year.

IPO activity regained momentum over the period, most strongly in the final quarter of the financial year. Additionally, secondary fundraising activity also strengthened over the period, reflecting growing investor appetite and entrepreneurial confidence. AIM companies raised approximately £2.7 billion during the year, which represents around 50% more than the prior year. The Company invested £2.5 million in new qualifying opportunities and £1.1 million into follow-on investments, maintaining a disciplined approach against a robust and growing pipeline. The recent update to VCT rules, aimed at ensuring continued support for genuine early stage innovation while providing greater flexibility around follow-on investments, are a welcome development. Against this more constructive backdrop, the Board remains positive about the prospects for the year ahead.

Performance

The Company delivered a stable performance over the year, with a net asset value total return of 0.0% after adding back dividends. This was an encouraging improvement from the decline reported at the interim stage. As seen from the comparative performance table below, although the Company’s relative performance lagged broader indices, this was largely due to continued investor caution toward smaller growth companies and the portfolio’s limited exposure to some of the year’s strongest performing sectors, such as mining and financials, which fall outside the Company’s investment remit.

Encouragingly, portfolio company fundamentals remain solid, positioning the Company to take advantage of the gradual recovery in confidence and liquidity within the VCT qualifying smaller company segment of AIM.

	Total return basis (%)
Octopus AIM VCT 2 plc	0.0
AIM Index	4.9
FTSE SmallCap Index (excluding investment companies)	8.1
FTSE All-Share Index	20.0

Dividends

In November 2025 an interim dividend of 1.8p was paid to all shareholders. The Board is recommending a final dividend in respect of the year to 30 November 2025 of 1.8p per share totalling 3.6p in respect of the year, which is a 9.4% yield¹ on the prior year closing share price of 38.4p, all paid from special distributable reserves. This is in line with the current policy of maintaining a minimum annual dividend payment of 3.6p per share or a 5% yield based on the prior year closing share price, whichever is the greater. Subject to the approval of shareholders at the Annual General Meeting (AGM), the final dividend will be paid on 29 May 2026 to shareholders on the register on 1 May 2026.

In addition, as a result of taking exceptional profits in a number of long-term holdings during the year, most notably the full disposal of Breedon Group, Learning Technologies Group and Intelligent Ultrasound Group, the Board has declared a special dividend of 3.6p which will be paid on 1 April 2026.

As communicated in the half-year report, the Company has updated its dividend policy. The Board now intends to target an annual dividend of 6% of the opening NAV, with the flexibility to pay additional special dividends where there are significant portfolio realisations. The first dividends under the revised policy are expected to be paid in November 2026.

Shareholders are encouraged to ensure that the details held for them by the registrar remain accurate and to check whether they have received all dividends payable to them. This is particularly important for those who move house or change

¹ Dividend yield is an alternative performance measure calculated as the total dividends divided by the closing share price as described in the Glossary of terms on page 87.

Chair's statement continued

their bank account or email address. We are aware that some dividends remain unclaimed by shareholders, so if you believe you are impacted by this, please contact our registrar, Computershare, at the details provided on page 88.

Board changes

Having been on the Board, including as Chair, for nearly 21 years, it is my intention to retire from the Board with effect from the conclusion of this year's Annual General Meeting on 19 May 2026. The Board have considered the skills and experience of existing Directors and determined that Andy Raynor will succeed me as Chair of the Company upon my retirement. Brad Ormsby will replace Andy Raynor as Audit Committee Chair of the Company. Recruitment for a further Non-executive Director is ongoing and an update will be provided in due course.

Cancellation of share premium account

At the last AGM, shareholders voted to cancel share premium to increase the pool of distributable reserves by the amount of £12.0 million. This is a regular occurrence to enable the continued payment of dividends and buyback of shares. A special resolution to this effect is being proposed at Resolution 13.

Dividend reinvestment scheme

In common with a number of other VCTs, the Company has established a dividend reinvestment scheme (DRIS) following approval at the AGM in 2014. Some shareholders have already taken advantage of this opportunity. For investors who do not need income, but value the additional tax relief on their reinvested dividends, this is an attractive scheme and I hope that more shareholders will find it useful. Over the

course of the year 3,784,407 new shares have been issued under this scheme, returning £1.4 million to the Company. The final and special dividend referred will be eligible for the DRIS.

Share issue

Highlights

Octopus AIM VCT 2 plc's latest fundraising	Shares issued
£8.9 million	23,161,892

On 12 January 2026, a prospectus offer was launched alongside Octopus AIM VCT plc to raise a combined total of up to £30 million, with a £30 million over-allotment facility.

Share buybacks

During the year to 30 November 2025 the Company continued to buy back shares in the market from selling shareholders and purchased 8,808,822 Ordinary shares for a total consideration of £3.2 million. We have maintained a discount of approximately 4.5% to NAV (equating to up to a 5% discount to the selling shareholder after costs), which the Board monitors and intends to retain as a policy which fairly balances the interests of both remaining and selling shareholders. Buybacks remain an essential practice for VCTs, as providing a means of selling is an important part of the initial investment decision and has enabled the Company to grow. As such, I hope you will all support the appropriate resolution at the AGM.

Liquidity

Shareholders may be interested to know that at the year end, 36.0% of the Company's net assets were held in cash or collective investment funds including funds managed by the team at Octopus and money market funds, providing short-term liquidity. 47.2% was invested in individual quoted shares and 17.1% was held in unquoted single company investments. The proportion of the portfolio represented by unquoted shares has increased over the period, not because of additional investment in the sector, but because of strong individual performances from some of the holdings, notably Hasgrove Limited and Popsa Holdings Ltd. Hasgrove's valuation increase reflected a bid approach and sale which completed post-year-end. Excluding Hasgrove the proportion of unquoted investments would have been 4.9% of net assets at the year end. Shareholders should be aware that a proportion of the quoted securities may have limited liquidity owing to the size of the portfolio company and the overall proportion held by the VCT.

VCT status

Shoosmiths LLP provide the Board and Investment Manager with advice concerning continuing compliance with HMRC regulations for VCTs. The Board has been advised that the Company is in compliance with the conditions laid down by HMRC for maintaining approval as a VCT. A key requirement is to maintain at least an 80% qualifying investment level according to HMRC definitions. As at 30 November 2025, the level was 90%.

Chair's statement continued

Annual General Meeting

The AGM will take place on 19 May 2026 at 10.30am. Further information can be found in the Notice of Annual General Meeting on pages 89 to 92. The Investment Manager will provide an update on the Company's activities and future plans at the AGM.

Formal notices will be sent to shareholders by their preferred method (email or post) and shareholders are encouraged to submit their votes by proxy. We always welcome questions from our shareholders at the AGM. Please send these via email to AIMVCT2AGM@octopusinvestments.com by 5.00pm on 14 May 2026 if you are unable to attend the AGM in person.

If your shares are held through a nominee account, formal notices will be sent to your nominee.

Outlook

Looking ahead, the Board remains cautiously optimistic. Although global uncertainty continues to influence market sentiment and appetite for risk, the trading outlook for small UK growth companies remains encouraging. Inflation is

moving closer to the Bank of England's target, while both business and consumer confidence are starting to recover. Recent interest rate cuts have also created a more supportive environment for equity markets. Early signs of renewed investor engagement, combined with attractive valuations, are providing a constructive backdrop for selective investment. In addition, the VCT rule changes announced in the November Autumn Budget further underscore the importance of VCTs as a vital platform for investing in small, high-growth AIM companies.

The portfolio contains 72 holdings across a range of sectors with exposure to some exciting new companies and technologies and it is well positioned to capitalise on emerging opportunities with a strong pipeline and disciplined long-term approach.

The Investment Manager continued

Freda Isingoma

Lead Fund Manager

Freda is the lead manager of the Octopus AIM VCTs. Freda started her career as an investment analyst at Charterhouse CCF before joining Close Brothers in 2001 focused on managing the AIM VCT, inheritance tax and smaller companies portfolios. In 2008 she moved to South Africa to join Investec Asset Management, where she co-managed the Africa Fund (a listed equity portfolio investing across Africa). In 2010 she ventured into entrepreneurship launching a beauty service brand in South Africa, and more recently a UK based art investment business specialising in providing ecosystem impact solutions for the African art market. She joined Octopus in January 2022 and is focused primarily on the AIM VCT portfolios. Freda also provides investment management support across all the Quoted Companies team products.

Kate Tidbury

Senior Fund Manager

Kate is a senior fund manager on the Quoted Companies team and has over 35 years' experience within the UK quoted smaller companies market. Kate started her City career in 1986 as a research analyst with Sheppards and Chase followed by Panmure Gordon (now Panmure Liberum). From 1993 she was an Investment Manager responsible for managing ethical and smaller companies' funds with the Co-operative Bank and Colonial First State Investments. In 2000, she joined the AIM team at Close Brothers Group and was involved in the management of multiple AIM portfolios including the AIM VCTs. In 2008, she joined Octopus and is focused primarily on the management of the AIM VCT portfolios. Kate provides investment management support across all the Quoted Companies team products.

Mark Symington

Fund Manager

Mark is a fund manager on the Quoted Companies team, focusing predominantly on the Octopus AIM VCTs. Mark joined Octopus in 2012, having worked previously at asset manager Warwick Wealth in South Africa. He graduated from the University of Cape Town in 2010 with a Bcom in Economics and Finance. In addition, Mark provides analytical and investment management support across all the Quoted Companies team products.

Martin Jager

Investment Analyst

Martin is an Investment Analyst on the Octopus Quoted Companies team, primarily providing analytical and investment management support across the AIM VCTs as well as assisting on all wider team mandates. He initially joined Octopus in 2021 as a member of the Finance team and is a Chartered Accountant and graduate from the University of Manchester with a degree in International Management with American Business Studies.

Dominic Weller

Senior Fund Manager

Dominic is a senior fund manager on the Quoted Companies team. He provides analytical and investment support across all the Quoted Companies team portfolios and co-manages the FP Octopus UK Future Generations Fund, FP Octopus UK Micro Cap Growth Fund, FP Octopus UK Multi Cap Income Fund and the Octopus AIM VCTs. He is a member of the Octopus Investments Responsible Investment Committee and leads the team's stewardship efforts. He is a CFA charterholder.

The wider quoted team

The Quoted Companies Team is led by Richard Power. The team is made up of 11 investment professionals with over 200 years of collective investment experience and an average tenure of 15 years. The breadth and depth of the team allows it to conduct in depth research, this includes taking over 700 meetings a year with the Company and Octopus AIM VCT plc providing significant coverage across the investable universe.

The Investment Manager continued

The Investment Manager and Responsible Investment

Octopus is an accredited B Corp and signatory to the internationally recognised Principles for Responsible Investment, demonstrating Octopus' commitment to responsible investment and to creating a more sustainable financial system. The Investment Manager believes that in the future, some of the most successful companies will be a force for good and that in today's hyperconnected transparent world, how a company behaves is just as important as what it does.

Mission

While the Company doesn't target specific sustainability goals or objectives, the Investment Manager looks for companies which will play an integral role in our future. The purpose of a VCT is to provide capital for small growth companies. Companies exposed to the new economy and technologies make up a significant proportion of the portfolio, which includes those focused on building a sustainable planet, revitalising healthcare, and empowering people. Examples of this include:

- Abingdon Health plc – developer of rapid lateral-flow diagnostic tests for healthcare and industrial partners.
- Nexteq plc – provider of high-performance computing and imaging hardware used across industrial and commercial applications.
- Windar Photonics plc – manufacturer of lidar-based wind-measurement systems designed to improve turbine efficiency and reduce operational costs.

- Netcall plc – provider of customer engagement and low-code automation software that supports organisations' digital transformation.

Materiality of risks to investments

As part of the investment process, the Investment Manager incorporates a material risk review of sustainability issues. These risks include:

- Environmental: emissions, energy management, waste, ecological impact;
- Social: privacy, security, product quality, selling practices;
- Human: labour, health and safety, diversity;
- Business model: product design, supply chain, material sourcing and
- Leadership: ethics, competitive behaviour, regulatory, critical incidents, and risk management.

The Investment Manager considers the exposure to these risks and how well portfolio companies are managing them. Disclosures relating to climate risks are set out in 'climate-related matters' on pages 32 and 33.

Responsibility

As part of the investment management approach, the Investment Manager's team discuss the portfolio companies' strategies, financial performance, data disclosures, capital structure and corporate governance with their management teams. Existing governance structures may not be mature (given the small size of portfolio companies), so the team assess whether weaknesses exist and if the company management can address these weaknesses. The team

take part in consultations on remuneration and challenge portfolio companies' Non-Executive Directors to align with company objectives, aiming to influence by giving feedback to corporate advisers and meeting with Non-Executive Directors and voting on resolutions at general meetings.

When it comes to voting, all holdings are covered by Institutional Shareholder Services (ISS), a leading global advisory firm. The team consider the independent research ISS provides and discuss votes as a team to create long-term shareholder value.

The Octopus Quoted Companies Team includes some of the most experienced AIM-focused fund managers in the market, totalling over 200 years of investment experience and an average tenure of 15 years

Investment Manager's review

Introduction

The UK economy showed encouraging signs of resilience despite the year to 30 November 2025 being marked by ongoing global macroeconomic uncertainty. Against a difficult backdrop of elevated geopolitical tensions at the start of 2025, supply chain disruption (due to ongoing US-China trade tensions) and periods of pronounced volatility linked to tariff negotiations and wider global conflict, domestic economic performance proved more robust than anticipated. Supported by strong services sector performance, UK GDP grew by 1.4% over the period. Furthermore, inflation moved closer to target, and the Bank of England implemented three interest rate reductions, lowering the base rate by a total of 75 basis points over the period.

Within this environment, UK capital market performance showed slow but gradual positive momentum as the year progressed and as investor confidence returned. Disappointingly, but not surprisingly, risk appetite remained muted, with investors continuing to favour larger, more established companies, as reflected in the relative outperformance of the large cap indices compared with AIM. Primary market activity remained subdued in the first half of the year, however signs of recovery in IPOs came later in the second half of the year signalling improvement in market sentiment and growing recognition of the UK's relative political and economic stability as an important underpin for its longer term investment appeal.

Following successful advocacy by the VCT community earlier in the year, the Autumn Budget introduced significant VCT rule changes, effective from 6 April 2026. These welcome reforms substantially expand the scheme's scope to better support scaling AIM-listed growth companies, raising the gross assets test to £30 million pre-investment (from £15 million) and £35 million post-investment (from £16 million), doubling annual company fundraising limits to £10 million (£20 million for knowledge-intensive companies), and increasing lifetime investment caps to £24 million (£40 million for knowledge-intensive). While investor income tax relief was reduced from 30% to 20%, the significantly broader qualifying criteria represent a major positive development, reinforcing the VCT sector's vital role in providing growth capital for innovative smaller businesses.

The Alternative Investment Market

2025 marked AIM's 30th anniversary, reaffirming its vital role as a primary funding platform for innovative UK smaller growth companies, enabling many to secure the capital needed to scale successfully. During the year, AIM proved a reliable source of capital, raising £2.7 billion, a marked increase from £1.8 billion the prior period. New IPOs rose over 50% to 14 underscoring sustained demand from investors and ambitious businesses. Earnings resilience was evident across much of the index, with numerous companies issuing positive trading updates despite local and global headwinds. Valuation multiples nonetheless remained below long-term averages, presenting compelling acquisition opportunities

for private equity and strategic buyers seeking high quality dynamic companies, a few of which materialised within the portfolio as detailed later.

Following a muted start to the year, the London Stock Exchange (LSE) finally turned its attention to reinforcing AIM's position as Europe's leading growth market. In April, the LSE published its discussion paper Shaping the Future of AIM, inviting feedback from market participants including ourselves; the subsequent feedback statement in November outlined initial development priorities across key areas. This represents an important step toward ensuring AIM remains fit for purpose in a dynamic market and continues to nurture the growth ecosystem it was designed to support.

Close behind came the Autumn Budget's welcome VCT rule changes at the end of November. While the reduction in upfront income tax relief was disappointing, the substantial expansion of qualifying investment limits including the gross assets test and lifetime caps will significantly widen the opportunity set and bolster AIM's capacity to deliver growth capital over the long term. Octopus has actively contributed to industry consultations advocating these reforms, and we welcome the Government's continued support for VCTs as a transformational source of patient capital for AIM companies. Encouragingly, the positive momentum around these changes has carried into 2026 and is expected to accelerate further.

Investment Manager's review continued

Performance

After adding back dividends of 3.6p paid during the year, the NAV total return was flat, an encouraging recovery from the decline reported in the half-year results. This compared to total returns of 4.9% for the FTSE AIM All-Share Index, 8.1% for the FTSE SmallCap (excluding investment companies), and 20.0% for the FTSE All-Share Index. While the NAV trailed the AIM benchmark, this largely reflected broader market dynamics alongside portfolio positioning.

Investor sentiment remained cautious toward smaller high-growth companies, particularly those exposed to US tariffs and global supply chain pressures. The portfolio's limited exposure to mining and financials, two of the strongest sectors over the period and typically outside VCT qualifying criteria, further contributed to the relative divergence. Non-Energy Minerals drove much of the FTSE AIM All-Share's gains, propelled by rising precious metal prices (particularly gold), while the FTSE All-Share benefited from broader sector strength led by major banks, pharmaceuticals (AstraZeneca, GSK), defence (Rolls-Royce), and retailers and industrial services in the FTSE SmallCap index.

Portfolio review

The Company's well-diversified portfolio of established companies provides resilience, though individual holdings inevitably influence overall returns. GB Group was the largest detractor. Despite results meeting expectations, shares weakened amid uncertainty over U.S. growth prospects due to tariff-driven volatility. The transition to the Main Market in

October triggered selling pressure from AIM-mandated funds, which impacted its share price. However, VCT regulations enabled us to retain the holding for a more favourable long-term outcome as we believe the company is well positioned to benefit from the growth in its sector. Judges Scientific missed market expectations in a softer trading environment, partly due to reduced public research spending following U.S. federal funding cuts. Nonetheless, it remains a high-quality operator of defensible niche businesses with strong profitability. GENinCode's shares declined sharply over the year due to U.S. regulatory delays in its FDA De Novo submission, compounded by slower-than-expected interim revenue growth. The company continues advancing toward significant commercial potential in cardiovascular diagnostics. PCI-PAL's share price has been weak over the last few months despite solid operations, including 25% revenue growth (with increased recurring revenue), stable margins, reduced losses, and progress on strategic partnerships such as U.S. healthcare sector integration, creating value the market should recognise in time.

There were also a number of companies who delivered a significant positive contribution towards performance. Aurigo delivered strong updates, driven by global demand for its autonomous airside solutions and new contract wins. The AutoCargo launch opened a promising vertical, highlighting long-term potential. We supported this new development with a new and follow-on investments, the latter co-led by strategic investor Next Gen Mobility Limited to bolster its balance sheet. Haydale advanced commercially, with its JustHeat range securing pilot deployments, UL certification

for U.S./Canadian sales, and multiple contract wins, driving positive valuation momentum. Netcall traded strongly across its automation and customer-engagement platforms, backed by robust revenue visibility and a healthy pipeline. Gear4music improved profitability through operational efficiencies, disciplined inventory management, stable demand, and strengthening gross margins.

Unquoted investments

Hasgrove's valuation increased materially during the year, driven by consistent operational performance and a bid approach from Castik Capital. The transaction, which completed post year end, valued the business at approximately 7x ARR and delivered a profit in excess of £9 million for the Company, an excellent outcome reflective of our long term investment approach. Popsa continued to scale effectively, reaching 2.5 million customers in 2025 and delivering strong revenue growth. International expansion remains a core driver, and the company's valuation was adjusted upward over the period reflecting this.

Investment Manager's review continued

New and follow-on investments

Below we have highlighted the six investments made during the year into VCT-qualifying companies, comprising three follow-on investments and three new investments, at a total cost of £3.6 million. We added three new VCT non-qualifying investments totalling £1.0 million for the year. This made a total investment of £4.6 million, a decrease on last year's £6.9 million. Below we have put a spotlight on the VCT qualifying investments made in the period.

KRM22 plc

£0.2 million

Follow-on

Develops risk management software designed to help financial services firms improve oversight and reduce operational risks.

Abingdon Health plc

£0.6 million

Follow-on

A leading international provider of lateral flow diagnostics, offering contract research, development, and manufacturing services.

GENinCode plc

£0.3 million

Follow-on

Specialises in genetic testing used to assess cardiovascular risk.

Aurrigo International plc

£1.1 million

New

Designs fully integrated airside technology solutions for the aviation sector, improving operational efficiency and safety.

RC Fornax plc

£0.8 million

New

An engineering consultancy providing specialised technical solutions for the defence industry.

Windar Photonics plc

£0.6 million

New

A manufacturer of LiDAR-based optimisation systems that enhance wind turbine efficiency and performance.

Investment Manager's review continued

Disposals

During the year, we sold partial holdings of two companies taking profits from rising share prices. We had full disposal of fourteen companies in the period and together all disposals generated net profits of £5.6 million over the original cost and generated cash proceeds of £13.2 million. As ever we maintained our sell discipline in the period, taking advantage of price volatility and blocks of liquidity in the market to take profits for holdings and also fully exit positions as required.

The successful sale of Breedon, following its earlier migration to the Main Market, continues to demonstrate the meaningful long-term value that can be achieved through patient investment in quality businesses. Learning Technologies Group and Intelligent Ultrasound Group were both sold following bid approaches from PE investors, to whom the value in the UK market is clearly apparent. We chose to dispose of our investment in RC Fornax in full, following a disappointing start to life on public markets with the business unable to capitalise on the supportive environment for Defence spending.

Investment Manager's review continued

Liquidity management

Non-qualifying investments are used to manage liquidity while awaiting new qualifying investment opportunities and we continue to hold some existing non-qualifying AIM holdings where we see the opportunity for further share price progress. During the year we increased our holdings in the FP Octopus Future Generations Fund, investing a total of £0.3 million over the period, and disposed of part of our holding in FP Octopus UK Multi Cap Income Fund for £0.6 million.

Outlook and future prospects

The outlook for 2026 remains promising, with strengthening foundations for UK growth companies amid ongoing geopolitical and market uncertainties. The UK economy has demonstrated resilience, as inflation edges toward the Bank of England's target, consumer and business confidence improves, and further interest-rate cuts create a supportive environment for equity markets. Valuations for small and mid-cap companies continue to offer historically attractive entry points, fostering early signs of renewed investor interest. For the VCT sector, recent reforms mark a significant

advancement, expanding qualifying company thresholds and investment limits to broaden the investable universe and align with the needs of dynamic small growth company ambitions. Though the reduced upfront income-tax relief is disappointing, these enhancements are poised to drive larger AIM capital raises across technology, healthcare, industrial innovation, and other key sectors essential to long term UK economic growth.

Post-year-end, the Company achieved strong capital deployment, buoyed by enhanced market activity, improving market sentiment and a robust pipeline of opportunities. While short-term volatility may continue, supportive policies, compelling valuations, and improving market dynamics create an optimistic backdrop. The Company is well positioned to benefit from this investment environment, selectively investing in high-growth businesses to deliver shareholder value.

Company spotlight

thecranewaregroup.com

Helping healthcare providers achieve optimal financial and operational performance.

What they do

Craneware provides software and support services that help US healthcare organisations improve operational, financial, and clinical performance. Its solutions span patient engagement, pricing and charge capture, claims analysis, revenue protection, and cost analytics.

Why we like it

We like the company for its essential role in helping hospitals manage costs, maintain compliance, and safeguard revenue. With a reliable subscription model, strong customer loyalty, and growing demand for digital tools and data-driven insights, Craneware is well positioned for long-term sustainable growth.

First investment	September 2007	IPO date	September 2007
Sector	Software and computer services	Market cap¹	£774 million
HQ	Edinburgh, Scotland		

These company examples are for illustrative purposes only. They should not be considered as an investment recommendation. Past performance is not a reliable indicator of future results.

¹ Factset data as at 30 November 2025.

aurrigo.com

Technology company specialising in autonomous vehicle solutions for airport operations, including the transport of passenger baggage and cargo.

What they do

Aurrigo aims to transform the way airports work. Key products include the Auto-DollyTug, an autonomous electric vehicle for passenger luggage and the larger Auto-Cargo, designed for heavy cargo transport. Aurrigo has partnered with major airports including Changi, Schiphol, Gatwick, and Cincinnati.

Why we like it

Airports globally are seeking to streamline ground operations and reduce labour costs, and Aurrigo is well placed to capture this emerging market. It is already gaining traction across several international airports, helping to shape future operations through its integrated vehicles, systems, and software. The company recently announced a strategy to work with local partners to fund programme development and manufacturing, significantly expanding its growth capacity.

First investment	December 2024	IPO date	September 2022
Sector	Technology	Market cap¹	£60 million
HQ	Coventry, England		

What the Fund managers say about Aurrigo:

‘Aurrigo is advancing autonomous mobility by turning innovation into practical solutions for safer, more efficient transport. Following its £14 million fundraising in September 2025, it is well positioned to capture new opportunities and continue its global growth.’

Investment Manager’s review continued

Sector analysis as at 30 November 2025

The graph below shows the top ten sectors in which the equity portfolio was invested by value as at 30 November 2025.

Market cap breakdown relative to the benchmark

The graph below illustrates the market capitalisation profile of the portfolio companies in comparison with the market capitalisation of the AIM Index as at 30 November 2025.

The Company benefits from an established, diversified portfolio but naturally has a significant proportion of early stage companies, with more than 60% of the portfolio invested in businesses with market capitalisations below £50 million. The Company’s holdings span sectors such as software and computer services, electronic and electrical equipment, and healthcare provision. These companies typically represent innovative, high-growth businesses addressing contemporary challenges through technology-led solutions, improved healthcare delivery and advanced engineering capabilities.

¹ Other sectors include Leisure Goods, Personal Care, Drug and Grocery Stores, Industrial Support Services, General Industrials, Telecommunications Service Providers, Chemicals, Media, Travel and Leisure, Oil, Gas and Coal, Aerospace and Defense, General Retailers and Industrial Engineering.
 ² Factset data as at 30 November 2025.

Section 172 statement

Introduction

The purpose of the report is to provide shareholders with sufficient information to enable them to assess the extent to which the Directors have performed their legal duty to act in good faith and to promote the success of the Company in accordance with Section 172 of the Companies Act 2006 for the benefit of shareholders as a whole, as set out in the strategic report. KPIs on performance are on pages 26 and 27.

The Directors of a company are required to act in the way they consider will most likely promote the success of the company for the benefit of its members as a whole. In doing this, Section 172 requires a director to have regard, amongst other matters, to the:

- likely consequences of any decisions in the long term;
- need to act fairly as between members of the company;
- need to foster the company's business relationships with suppliers, customers and others;
- impact of the company's operations on the community and environment;
- desirability of the company maintaining a reputation for high standards of business conduct; and
- interests of the company's employees.

In discharging the Board's Section 172 duties regard has been given to the above factors. The Board also has regard to other factors where relevant. By considering the Company's purpose and objectives together with its strategic priorities and having a process in place for decision-making, the Board aims to ensure that decision making is consistent and predictable.

As a Venture Capital Trust, Octopus AIM VCT 2 plc has no employees. However, the Directors also assessed the impact of the Company's activities on other stakeholders. The Company considers its shareholders, the Investment Manager, portfolio companies and other service providers to be its key stakeholders.

Shareholder engagement

Shareholder engagement is given high priority by the Board. The Company engages with its shareholders via various media including, but not limited to, the AGM, the Investment Manager shareholder presentation provided at the AGM, the annual and half-year reports and market announcements.

The AGM gives shareholders the opportunity to exercise their right to vote on resolutions and engage with the Board and the Investment Manager. The voting results from all General Meetings are published on the Company's website.

The Board regularly disseminates information to shareholders, including a weekly NAV and through RNS releases on the London Stock Exchange. Shareholders receive the annual report and accounts which aims to provide a full understanding of the Company's activities and results. This information, together with the half-yearly reports, prospectus and other shareholder information, is published via the London Stock Exchange and on the Octopus website at www.octopusinvestments.com.

The Board always welcome questions from our shareholders at the AGM. To ensure we are able to respond to any questions you may have, for either the Investment Manager or the Board, we would request that you please send these via email to AIMVCT2AGM@octopusinvestments.com by 5.00pm on 14 May 2026.

Provision 4 of the 2018 UK Corporate Governance Code requires a company which has received 20% or more of votes cast against a resolution to explain, when announcing the voting results, what actions it intends to take to consult shareholders in order to understand the reasons behind the result. The Company continues to monitor the 20% threshold for votes cast against Board recommendations for a resolution, but has not yet been required to take any actions in this regard.

Engagement with the Investment Manager

It is normal practice for Venture Capital Trusts to delegate authority for day-to-day management of the Company to an Investment Manager and then to engage with the Investment Manager in setting, approving and overseeing the execution of the business strategy and related policies and all administration and control functions. The Investment Manager attends the scheduled quarterly Board meetings, and other ad-hoc meetings as appropriate, ensuring an open dialogue. At every Board meeting a review of financial and operational performance, as well as legal and regulatory compliance, is undertaken. The Board also reviews other areas over the course of the financial year, including: the Company's business strategy; key risks; stakeholder-related matters; diversity and inclusivity; environmental matters; corporate responsibility; and governance. The Board formally reviews the performance of the Investment Manager on an annual basis. All Board members complete a questionnaire regarding the Investment Manager's performance and discuss the findings before concluding.

Section 172 statement continued

Engagement with portfolio companies

The Company's performance is directly linked to the performance of its underlying portfolio companies. The Board has delegated the monitoring of its portfolio companies to the Investment Manager which engages with portfolio companies through a programme of regular company meetings as part of its investment process. The Board has also given the Investment Manager discretionary authority to vote on portfolio company resolutions on its behalf as part of its approach to corporate governance.

Engagement with other key stakeholders and environment

The Investment Manager is a key business partner with responsibility for the provision of investment management, administration, custody and company secretarial services.

During the period the Board received sufficient information to assist in understanding the interests and views of the Company's key stakeholders, investors, portfolio companies and service providers to the Company, including the auditor, lawyers and registrar.

The Board recognises the importance of responsible investment and the Octopus Group, of which the Investment Manager forms a part, was certified as a B Corp in February 2021. B Corp certification is a designation that a business is meeting high standards of verified performance, accountability and transparency on factors from employee benefits and charitable giving to supply chain practices and input materials. Certified B Corps are recognised as leaders in the global movement for an inclusive, equitable and regenerative economy.

The Investment Manager is continuing to develop processes and practices that deliver on its approach to responsible investment, as set out in the responsible investment policy. This includes the development and implementation of internal processes and checks in line with the UN Principles of Responsible Investing. The Investment Manager continues to monitor the ESG practices of existing portfolio companies and shall review our portfolio to confirm our compliance with these expectations. An example of this is the ongoing assessment of the carbon emission levels of companies within the portfolio, and their progression towards furthering sustainability and environmental goals regarding net zero ambition and decarbonisation.

Octopus Group was certified as a B Corp in 2021. B Corps are recognised as leaders in the global movement for an inclusive, equitable and regenerative economy.

Key decisions made during the year

Some of the key decisions made by the Company during the year that required the Board to take into consideration Section 172 factors include:

- The Board discussed fundraising with the Investment Manager and announced an intention to fundraise in October 2025. The offer for subscription of shares was launched in January 2026.
- The Company continued to buy back shares, providing liquidity to shareholders who wished to sell their shares. The Board maintained a discount of approximately 4.5% to NAV, therefore balancing the interests of both remaining and selling shareholders.
- The Board looks to create shareholder value. During the year, following targets agreed with the Investment Manager, dividends totalling 3.6p were paid to shareholders (comprising a final dividend of 1.8p, in respect of the previous financial year, and an interim dividend of 1.8p).
- The Board considered it appropriate to obtain shareholders' approval for the cancellation of the amount outstanding to the share premium account of the Company to create (subject to Court approval) a pool of distributable reserves.

Section 172 statement continued

Our key stakeholders

Shareholders

Why we engage

The Board recognises the critical importance of open and timely communications with shareholders. Their support is fundamental to raising further capital which is dependent on the Company's performance and clear reporting on portfolio progress. Shareholders are encouraged to attend and vote at shareholder meetings and to raise questions in relation to the Company's progress.

How we engage

The annual and half-yearly reports, prospectus and other shareholder information are published on the Octopus Investments website octopusinvestments.com. Details of the portfolio, the investment team and other insights are published on the Octopus Investments website octopusinvestments.com. Shareholder enquiries are handled promptly by Octopus Investments. The Chair responds to communications addressed to the Board. The Directors aim to make sure that the annual report and financial statements are fair, balanced and understandable, and that sufficient information is provided to shareholders to assess the Company's performance, business approach and strategy.

Portfolio companies

Why we engage

The Company's performance and the performance of its underlying portfolio companies are directly and intrinsically linked. The Investment Manager monitors the portfolio companies through a programme of regular company meetings as part of its investment process.

How we engage

The Board has also given Octopus discretionary authority to vote on portfolio company resolutions on its behalf as part of its approach to corporate governance, and encourages it to do so. As part of the portfolio valuation review the Board is provided with sufficient information and support to scrutinise the performance of the portfolio companies.

Octopus and suppliers

Why we engage

The Company is reliant on Octopus as the key provider of investment management and non-investment services. In addition, third parties such as Computershare, the Company's registrar; Panmure Gordon, the Company's corporate broker; as well as lawyers and tax advisers provide key services for the Company and shareholders. The Board has a positive and open relationship with Octopus and annually, following a review, votes on retaining Octopus as the Investment Manager. A variety of independent professional advisers are utilised by the Company to help with certain activities, including regulatory and legal compliance, for example lawyers; tax advisers; corporate brokers; and auditors.

How we engage

The Company works with Octopus and other suppliers to maintain appropriate levels of performance, ethics and governance in order to create value and mitigate risk. Octopus attends all Board meetings with regular updates on investment performance, risks and non-investment services activities as well as ad hoc analysis as requested by the Board. The Company works with our suppliers to make sure that it can provide an appropriate level of service and regulatory compliance function. The Company is focused on ensuring that we have the right suppliers and relationships that can effectively deliver the right services for the business in line with applicable laws, regulations and best practice.

Section 172 statement continued

Our key stakeholders continued

Community and environment

Why we engage

The Board considers it important that the Company has a responsible approach to investing as set out in the framework on page 8 taking account of environmental, social and governance matters. The Company’s investment operations create employment, aid economic growth, generate tax revenues and produce wealth, thus benefitting the community and economy overall.

How we engage

Apart from the Board’s recognition that the responsible investment policy should help to mitigate the impacts of climate change, the Board has moved to a largely paperless operation over the past three years and utilises conferencing platforms where appropriate.

The Board requires that Octopus collects data on diversity within the portfolio and actively works with our portfolio companies on an ongoing basis to support their talent management and recruitment, staff well-being and diversity policies and initiatives.

Government and regulators

Why we engage

Good governance and compliance with applicable regulations is vital in ensuring the continued success of the Company and the regimes within which it operates.

Octopus, on behalf of the Board, actively engages with HMRC and HM Treasury to seek changes in VCT legislation, lobbying the government to highlight the economic benefits of VCTs.

How we engage

The Board encourages openness and transparency and promotes proactive compliance with new regulation.

The Company, through its Investment Manager, engages with government and regulatory bodies at regular intervals as well as participating in focus groups and research with industry bodies.

Government and regulatory policy informs strategic decision-making at Board level with consideration given to the impact the Company has on the sector.

Business review

The Company's objective

The objective of the Company is to invest in a broad range of Alternative Investment Market (AIM) or Aquis Stock Exchange (AQSE) traded companies in order to provide shareholders with attractive tax-free dividends and long-term capital growth. Investments are made selectively across a range of sectors in companies that have the potential to grow and enhance their value.

The Company has been approved as a Venture Capital Trust by HMRC under Section 259 of the Income Tax Act 2007 (as amended). The shares of the Company were first admitted to the Official List of the UK Listing Authority and trading on the London Stock Exchange on 25 January 2006 and can be found under the TIDM code 'OSEC'. The Company is main market premium listed.

Investment policy

The Company's investment policy has been designed to enable it to comply with the VCT qualifying conditions. The Board intends that the long-term disposition of the Company's assets will be not less than 85% in a portfolio of qualifying AIM, AQSE exchange traded investments or unquoted companies where in the short to medium term, the management is planning an initial public offering (IPO) on AIM or AQSE.

The non-qualifying balance will be invested in permitted investments held for short-term liquidity, generally comprising short-term cash or money market deposits with a minimum Moody's long-term debt rating of 'A', authorised funds, including those managed by Octopus, or directly in

equity investments and bonds. This provides a reserve of liquidity which should maximise the Company's flexibility as to the timing of investments, disposals, dividend payments and share buybacks.

Risk is spread by investing in a number of different businesses across a range of industry sectors. The maximum amount invested in any one company is limited to the amount permitted pursuant to VCT legislation in a fiscal year and no more than 15% of the value of its investment at the time of investment. The value of an individual investment is expected to increase over time as a result of trading progress and a continuous assessment is made of its suitability for sale. However, shareholders should be aware that the Company's qualifying investments are held with a view to long-term capital growth as well as income and will often have limited marketability; as a result it is possible that individual holdings may grow in value to the point where they represent a significantly higher proportion of total assets prior to a realisation opportunity being available.

The Company's Articles permit borrowings of amounts up to 10% of the adjusted share capital and reserves (as defined in the Company's Articles). However, investments will normally be made using the Company's equity shareholders' funds and it is not intended that the Company will take on any borrowings.

No material changes may be made to the Company's investment policy described above without the prior approval of shareholders by the passing of an Ordinary Resolution. The Directors will continually monitor the investment process and ensure compliance with the investment policy.

Future prospects

The Company's longer-term stewardship of assets has allowed the Company to maintain the dividend payments to shareholders in line with the current dividend policy and the revised policy, which will take effect from the dividend to be paid in November 2026, set out on page 3. The Board believes the Company's business model will enable it to continue to deliver the targeted regular tax-free annual dividends referred to in the Chair's Statement. The Company has a strong cash position which enables investment in new companies and support for existing companies. The outlook statements in both the Chair's Statement and the Investment Manager's Review, on pages 5 and 13 respectively, provide further details on the more immediate prospects of the Company.

Performance

The Board is responsible for the Company's investment strategy and performance, although the management of the Company's investment portfolio is delegated to Octopus through the investment management agreement, as referred to in the Directors' Report.

The graph on page 25 compares the total return of the Company over the period from 1 March 2006 to 30 November 2025 with the total return from notional investments in the FTSE AIM All-Share Index, FTSE All-Share index, and the FTSE SmallCap (ex-investment companies) Index over the same period. The FTSE AIM All-Share Index is a stock market index consisting of all companies quoted on the Alternative Investment Market and the FTSE SmallCap Index is an index of small market capitalisation companies.

Business review continued

The Directors consider these to be the most appropriate in helping shareholders benchmark returns from the Company but would remind investors that approximately 15% of the FTSE AIM All-Share Index is attributable to resources, mining, investment companies and property stocks in which VCTs cannot invest. VCTs are also limited to investing into companies with certain size and age restrictions. The inclusion of the FTSE All-Share Index is to provide a wider stock market context. Investors should be reminded that shares in VCTs generally continue to trade at a discount to the NAV of the company.

Comparative portfolio performance

Business review continued

Key performance indicators (KPIs)

As a VCT, the Company’s objective is to provide shareholders with attractive dividends and capital return by investing its funds in a broad spread of predominantly quoted UK companies which meet the relevant criteria for VCTs.

The Board has identified five key performance measures to assess the Company’s success in meeting these objectives. Some of these are classified as alternative performance measures (APMs¹) in line with Financial Reporting Council (FRC) guidance. The Glossary of terms on page 87 has further details.

1

NAV per share

The NAV per share of the Company is the sum of the underlying assets less the liabilities of the Company divided by the total number of shares in issue.

Reason for movement

The NAV per share has decreased by 3.6p, from 40.5p to 36.9p over the year. This reduction is primarily due to the dividends paid during the period, which totalled 3.6p per share.

2

NAV total return per share¹

Total return is calculated as movement in NAV per share in the period plus dividends paid in the period, divided by the NAV per share at the beginning of the period. Total return on the NAV per share enables shareholders to evaluate more clearly the performance of the Company, as it reflects the underlying value of the portfolio at the reporting date. This is the most widely used measure of performance in the VCT sector.

Reason for movement

As previously considered, the NAV per share has decreased from last year’s value of 40.5p to 36.9p. This gave a total return of 0.0% after adding back dividends of 3.6p paid in the year.

The Board remains confident about achieving the long-term objective of the Company. Performance is also measured against the FTSE SmallCap Index and the FTSE All-Share Index, with the latter being provided for wider stock market context. This is also shown on the graph on page 25. In the year under review the FTSE SmallCap Index increased by 8.1% and the FTSE All-Share Index rose by 20.0%, all on a total return basis. These indices have been adopted as comparative indices. Further details on performance can be found within the Investment Manager’s Review on pages 9 to 19.

¹ These KPIs are defined as alternative performance measures (APMs) and are defined in more detail on the Glossary of terms on page 87.

Business review continued

3 Dividends per share paid in the year

In line with the current policy the Company has a target of paying an annual dividend of 3.6p per share or a 5% yield based on the prior year-end share price, whichever is greater at the time.

Reason for movement

This year the dividends paid were lower due to a special dividend of 3.6p made following a large sale from the portfolio in the prior year.

The 3.6p of dividends paid in the year maintains the minimum of 5% dividend yield target. The proposed final dividend of 1.8p gives a total dividend in respect of the year of 3.6p, which is a yield of 9.4%¹ based on the share price of 38.4p at the prior year end, in line with the Board's current policy of paying the higher of a 5% yield or 3.6p of dividends in the year.

The Company has updated its dividend policy. The Board now intends to target an annual dividend of 6% of the opening NAV, with the flexibility to pay additional special dividends where there are significant portfolio realisations. The first dividends under the revised policy are expected to be paid in November 2026.

¹ These KPIs are defined as alternative performance measures (APMs) and are defined in more detail on the Glossary of terms on page 87.

4 Ongoing charges¹

The ongoing charges ratio has been calculated using the AIC recommended methodology and excludes exceptional costs and trail commission.

Reason for movement

The ongoing charges ratio has decreased from the previous year due to a decrease in expenses.

There are a number of costs involved in operating a VCT, these expenses are outlined in note 4 on page 67. The Company has an expense cap of 3.5%. The ongoing charges have been lower than the expense cap for the current and prior year, which is in line with the Board's expectations.

5 Qualifying % under VCT rules

The Company must comply with VCT legislation laid down by HMRC. A key requirement is to maintain at least an 80% qualifying investment level. This percentage is calculated using a formula based on HMRC rules.

Reason for movement

The qualification level has increased by 3.3% due to higher deployment and lower disposals made in the current year, so more investments are contributing to the 80% qualifying investment level. Further details on VCT regulations can be found within Information and contact details on page 84.

The Company has continued to meet the 80% qualification investment level. There continues to be sufficient investment opportunities to enable the Investment Manager to comply with these ratios. The Chair's Statement, on pages 3 to 5, includes a review of the Company's activities and future prospects; further details are also provided within the Investment Manager's Review on pages 9 to 19.

Risk and risk management

Principal risks, risk management and regulatory environment

The Board carries out a regular review of the risk environment in which the Company operates. The Board seeks to mitigate risks by setting policy, reviewing performance and monitoring progress and compliance. In the mitigation and management of these risks, the Board applies the principles detailed in the Financial Reporting Council's Guidance on Risk Management, Internal Control and Related Financial and Business reporting. Detailed below are what the Board deems to be the principal risks of the Company and the mitigating actions in relation to those risks.

Risk	Mitigation	Change ¹
Investment risk: The focus of the Company's investments is into VCT qualifying companies quoted on AIM and the AQSE exchange, which by their nature entail a higher level of risk and lower liquidity than investments in larger quoted companies.	The Investment Manager has significant experience and a strong track record of investing in AIM and AQSE companies, and appropriate due diligence is undertaken on every new investment. The overall risk in the portfolio is mitigated by maintaining a wide spread of holdings in terms of financing stage, age, industry sector and business models. The Board reviews the investment portfolio with the Investment Manager on a regular basis.	No overall change.  Elevated exposure persists due to continued macroeconomic uncertainty and challenging conditions for some portfolio companies.
Risk	Mitigation	Change ¹
VCT qualifying status risk: The Company is required at all times to observe the conditions for the maintenance of HMRC-approved VCT status. The loss of such approval could lead to the Company and its investors losing access to the tax benefits associated with VCT status and, in certain circumstances, to investors being required to repay the initial income tax relief on their investment.	Prior to investment, the Investment Manager seeks assurance that the investment will meet the legislative requirements for VCT investments. On an ongoing basis, the Investment Manager monitors the Company's compliance with VCT regulations on a current and forecast basis to ensure ongoing compliance with VCT legislation. Regular updates are provided to the Board throughout the year. The VCT status adviser formally reviews the Company's compliance with VCT regulations on a bi-annual basis and reports its results to the Board and Investment Manager.	No change to overall  risk exposure. VCT status monitoring by independent advisors continues to reduce the risk of an issue causing a loss of VCT status.

¹ Since 30 November 2024,  indicates no change,  indicates an increase and  indicates a decrease.

Risk and risk management continued

Risk	Mitigation	Change ¹
Operational risk: The Board is reliant on the Investment Manager to manage investments effectively, and manage the services of a number of third parties, in particular the registrar and tax advisers. A failure of the systems or controls at the Investment Manager or third-party providers could lead to an inability to provide accurate reporting and to ensure adherence to VCT and other regulatory rules. This could result from a range of factors including an operational failure or cyber incident.	The Board reviews the system of internal control, both financial and non-financial, operated by the Investment Manager (to the extent the latter are relevant to the Company's internal controls). These include controls that are designed to ensure that the Company's assets are safeguarded and that proper accounting records are maintained, as well as any regulatory reporting. Feedback on other third parties is reported to the Board on at least an annual basis, including adherence to service level agreements where relevant.	No overall change in risk exposure. While the operational environment remains stable, the Board continues to monitor third party service performance and emerging risks. 
Risk	Mitigation	Change ¹
Cyber and information security: A loss of key data could result in a data breach and fines. The Board is reliant on the Investment Manager and third parties to take appropriate measures to prevent a loss of confidential customer information.	Annual due diligence is conducted on third parties by the Investment Manager which includes a review of their controls for information security. The Investment Manager has a dedicated cyber and information security team and a third party is engaged to provide continual protection in this area. A security framework is in place to help prevent malicious events. The Investment Manager reports to the Board on an annual basis to update them on relevant cyber and information security arrangements. Significant and relevant cyber and information security breaches are escalated to the Board should they occur.	No overall change. Cyber risk remains materially significant, and mitigants are continually evaluated to ensure they remain appropriate in light of evolving threat vectors, including those amplified by artificial intelligence. 

¹ Since 30 November 2024,  indicates no change,  indicates an increase and  indicates a decrease.

Risk and risk management continued

Risk	Mitigation	Change ¹
Economic: Events such as an economic recession, movement in interest rates, inflation, political instability and rising living costs could cause volatility in the market, adversely impacting the valuation of investments. This could result in a reduction in the value of the Company's assets.	The Company invests in a diverse portfolio of companies across a range of sectors, which helps to mitigate against the impact of poor performance in any one sector. The Company also maintains adequate liquidity to ensure that it can continue to provide follow-on investment to those portfolio companies which require it and which is supported by the individual investment case. The Investment Manager monitors the impact of macroeconomic conditions on an ongoing basis and provides updates to the Board at least quarterly.	No overall change on balance. Increased exposure from prior periods remains as economic uncertainty continues across interest rates, recession risk and other macroeconomic factors. 
Risk	Mitigation	Change ¹
Legislative: A change to the VCT regulations could adversely impact the Company by restricting the companies the Company can invest in under its current strategy. Similarly, changes to VCT tax reliefs for investors could make VCTs less attractive and impact the Company's ability to raise further funds. Failure to adhere with other relevant legislation and regulation could result in reputational damage and/or fines.	The Investment Manager engages with HM Treasury and industry bodies to demonstrate the positive benefits of VCTs in terms of growing UK companies, creating jobs and increasing tax revenue, and to help shape any change to VCT legislation. The Investment Manager employs individuals with expertise across the legislation and regulation relevant to the Company. Individuals receive ongoing training and external experts are engaged where required.	No overall change since decline in risk exposure following the agreed extension of the sunset clause to 2035. 

¹ Since 30 November 2024,  indicates no change,  indicates an increase and  indicates a decrease.

Risk and risk management continued

Risk	Mitigation	Change ¹
Liquidity: The risk that the Company’s available cash will not be sufficient to meet its financial obligations. The Company invests into smaller companies, quoted on the AIM and AQSE exchanges, and private companies which are inherently less liquid than stocks on the main market. Therefore, these may be difficult to realise for their fair market value at short notice.	The Investment Manager prepares cash flow forecasts to ensure cash levels are maintained in accordance with policies agreed with the Board. The Company’s overall liquidity levels are monitored on a quarterly basis by the Board, with close monitoring of available cash resources. The Company maintains sufficient cash and readily realisable securities, including MMFs and OEICs, which can be accessed at short notice. At 30 November 2025, 23.9% of net assets was held in cash and MMFs, realisable within one business day, and 12.1% in open-ended investment companies (OEICs), realisable in seven business days.	Risk exposure remains  unchanged. Liquidity levels continue to be monitored closely, with no material shifts in the underlying profile.
Risk	Mitigation	Change ¹
Valuation: For smaller companies or illiquid shares, establishing a fair value can be difficult due to the lack of readily available market data for similar shares, resulting in a limited number of external reference points.	Investments in companies traded on AIM and AQSE exchange are valued by the Investment Manager using closing bid prices as reported on Bloomberg. Where investments are in unquoted companies or where there are indicators the bid price is not appropriate, alternative valuation techniques are used in accordance with the IPEV guidelines. Valuations of unquoted portfolio companies are performed by appropriately experienced staff, with detailed knowledge of both the portfolio company and the market in which it operates. These valuations are then subject to review and approval by the Octopus Valuations Committee, comprised of staff who are independent of the Investment team and with relevant knowledge of unquoted company valuations. The Board reviews valuations after they have been agreed by the Octopus Valuations Committee.	Risk exposure remains  unchanged, supported by stable valuation methodologies and continued oversight from the Octopus Valuations Committee and the Board.

Emerging risks

The Board has considered emerging risks. The Board seeks to mitigate emerging risks and those noted below by setting policy, regular review of performance and monitoring progress and compliance.

The following are some of the potential emerging risks management and the Board are currently monitoring:

- adverse changes in global macroeconomic environment;
- geo-political tensions; and
- climate change.

¹ Since 30 November 2024,  indicates no change,  indicates an increase and  indicates a decrease.

Risk and risk management continued

Gender and diversity

The Board of Directors currently comprises one female and three male Non-Executive Directors with considerable experience of the VCT industry and a broad range of skills and backgrounds. All appointments to the Board are made on the basis of ability and knowledge. The composition of the Board, including gender and diversity, is reviewed on an annual basis. As at 30 November 2025 the Company has not met the UK Listing Rule 6.6.6R (9)(a) target of the Board comprising 40% women. The target of at least one member of the Board being from a minority ethnic background was not met during the year. The Board believes in the value and importance of diversity in the boardroom but does not consider that it is in the best interests of the Company and its shareholders to set prescriptive targets for gender or ethnicity on the Board. As the Company is externally managed the roles of CEO or CFO do not exist.

Please see the tables on this page which report on gender identity/sex and ethnic background for completeness as at 30 November 2025.

Ethnic background

	Number of Board members	Percentage of the Board	Number of senior positions on the Board (CEO, CFO, SID and Chair)
White British or other White (including minority white groups)	4	100%	Not applicable ¹
Mixed/Multiple Ethnic Groups	–	–	
Asian/Asian British	–	–	
Black/African/Caribbean/Black British	–	–	
Other ethnic group	–	–	
Not specified/prefer not to say	–	–	

¹ This column is not applicable as the Company is externally managed and does not have executive management functions, specifically it does not have a CEO or CFO. The Company considers that the role of Chair and Chair of the Audit Committee are senior positions. Of these two senior positions, both are performed by those from a White British background.

² This column is not applicable as the Company is externally managed and does not have executive management functions, specifically it does not have a CEO or CFO. The Company considers that the role of Chair and Chair of the Audit Committee are senior positions. Of these two senior positions, both are performed by men.

Gender identity or sex

	Number of Board members	Percentage of the Board	Number of senior positions on the Board (CEO, CFO, SID and Chair)
Men	3	75%	Not applicable ²
Women	1	25%	
Not specified/prefer not to say	–	–	

Employee, human rights, social and community issues, environment policy and greenhouse gas emissions

The Board's policy on employee, human rights, social and community issues, environment policy and greenhouse gas emissions is discussed in the Directors' Report on page 37.

Climate-related matters

Octopus has chosen to continue evolving its responsible investment disclosures in alignment with industry-recognised regulatory and reporting frameworks, such as the Task Force on Climate Related Financial Disclosures (TCFD). Importantly, due to its structure, the Company is voluntarily disclosing this information, as opposed to it being a mandated 'in-scope' fund. In alignment with the spirit of the TCFD framework, some initial disclosures have been outlined under the categorisations below, but do not cover the full set of requirements as per the TCFD framework. Future changes are anticipated as regulatory and reporting frameworks continue to evolve.

- **Governance:** Day-to-day management of the portfolio, and oversight of investment decisions, sits within the Investment Manager's governance structures.
- **Strategy:** The Company makes investments into a range of sectors but the companies receiving funding are small companies primarily listed on AIM. Exposure to climate-related risks is assessed on a deal-by-deal basis by the Investment Manager. The analysis considers

Risk and risk management continued

transition risks and the physical risks and impacts of climate change for industries and sectors where this has been identified as a material issue. The Investment Manager is also focused on identifying investment opportunities in companies that are well positioned to benefit from the transition to a lower carbon economy.

- **Risk management:** The investment team use guidance from the Sustainability Accounting Standards Board ('SASB') to identify climate-related risks. Where potential material climate-related risks have been identified, the Investment Manager assesses how well the risk is managed by the portfolio company through further due diligence.
- **Metrics:** Where relevant for the industry and sector, the team review metrics reported by the portfolio company to understand material exposures, how they are being managed and company performance. This includes areas such as energy management, energy use, carbon footprint disclosures and commitments to appropriate carbon reduction pathways for the sector and industry.

On an aggregated level, the Company's most material climate risk relates to carbon emission; this is due to the underlying portfolio companies having to adapt their business models to successfully transition to a lower/zero carbon footprint. As such, the Investment Manager has taken steps to measure Scope 1 and 2 greenhouse gas emissions. Scope 1 emissions are those directly from company-owned and controlled resources. Scope 2 emissions are indirect emissions from the generation of purchased energy, from a utility provider. Scope 3 emissions are all indirect emissions, not included in Scope 2.

While the ultimate goal is to reduce portfolio emissions to minimise these risks, the immediate goal is to increase data coverage. The data coverage is currently 76% (2024: 74%), however, 74% of this is estimated rather than reported by the companies in their annual or sustainability reports. We will engage with the companies to report on their emissions, to allow for more accurate data, and encourage them to set targets. Furthermore, Octopus Group are in the process of submitting Science-Based targets using guidance from the Science-Based Targets initiative (SBTi). Therefore, engaging with the Company to reduce emissions forms part of the Octopus Group targets. Given the intricate modelling, lack of data and calculations involved, we regard the analysis as indicative. Greenhouse gas (GHG) emissions:

Scope 1 & 2 footprint (tCO ₂ e/mGBP invested)	12	268	(93)%
Scope 1 & 2 weighted average carbon intensity (tCO ₂ e/mGBP revenue)	120	282	(58)%
Percentage of issuer emission data coverage (including estimates)	86%	70%	23%

Consumer Duty

The Directors are aware of the Investment Manager's obligations to comply with the FCA's Consumer Duty rules and principles which came into force in 2023. Firms subject to Consumer Duty must ensure they are acting to deliver good outcomes for consumers and that this is reflected in their strategies, governance, leadership, and policies. The Investment Manager undertook a review of its practices to identify and uplift areas of its operations in order to comply with the Consumer Duty principles which concluded ahead of the Consumer Duty principles coming into force. The Company is not directly captured by Consumer Duty, however the Directors will receive updates from the Investment Manager in order to monitor how the Investment Manager is meeting its obligations.

The Strategic Report was approved on behalf of the Board by:

Keith Mullins
Chair
3 March 2026

Governance

Board of Directors	35
Directors' report	36
Corporate governance report	40
Audit Committee report	45
Directors' remuneration report	47

Board of Directors

The Board comprises four Directors, all of whom are independent of the Investment Manager. The Directors operate in a non-executive capacity and are responsible for overseeing the investment strategy of the Company. The Board has wide experience of investment in both smaller growing companies and larger quoted companies. All Directors are members of the Audit Committee.

Keith Mullins

Chair

Keith Mullins joined SG Warburg's investment management division in 1978. The division later developed into Mercury Asset Management and subsequently became Merrill Lynch Investment Managers upon its acquisition by Merrill Lynch in 1998. He therefore has many years' experience as a specialist UK equity fund manager. During this time he was responsible for establishing and managing the team specialising in small and medium-sized pension fund portfolios, and from 2000 he was head of pension fund asset allocation. He left as a managing director of Merrill Lynch Investment Managers in 2001. Keith became a Director of the Company on 14 September 2005.

Keith will be retiring from the Board at the conclusion of the AGM on 19 May 2026.

Andy Raynor

Audit Committee Chair

Andy is a non-executive leadership team member and former Chair of Potter Clarkson LLP, a leading full-service intellectual property law firm based in the UK and Europe. Andy retired from the position of Chief Executive of Shakespeare Martineau LLP in January 2019, an expanding Midlands and London law firm that he led from 2015 through a period of significant growth in turnover and profits. In addition to Potter Clarkson he also has a portfolio of senior advisory roles in the professional and financial services sector and has held other corporate non-executive roles over many years. Andy joined RSM Tenon Group PLC ('RSM Tenon') in 2001 after its acquisition of the independent partnership

formerly known as BDO Stoy Hayward – East Midlands. Andy led the company to win National Firm of the Year 2011 in the British Accountancy Awards. Prior to joining RSM Tenon, he spent almost 20 years with BDO Stoy Hayward – East Midlands, where he was managing partner. Andy became a Director of the Company on 14 September 2005.

Brad Ormsby

Non-executive Director

Brad Ormsby has been Chief Financial Officer at Judges Scientific plc ('Judges Scientific'), the AIM-listed buy and build scientific instruments group, since 2015. He is a Chartered Accountant with significant senior financial and operational experience acquired during his time at PwC and Eurovestech plc, a technology venture capital fund. Prior to joining Judges Scientific he was CFO at Kalibrate Technologies plc where he led the company's IPO onto AIM. In September 2024, Brad was appointed a non-executive Director of Software Circle plc. Brad became a Director of the Company on 1 January 2022.

Virginia (Connelly) Bull

Non-executive Director

Virginia has over 20 years of PLC Advisory and Corporate Broking experience working with AIM and Main Market companies. Virginia is a nominated adviser to AIM companies. Currently, Virginia is an Executive Director in the Investec Bank plc Corporate Broking team, focused on partnering with Tech and Media companies along their growth journey. Virginia became a Director of the Company on 1 January 2024.

Directors' report

The Directors present their report and the audited financial statements for the year ended 30 November 2025. The Corporate Governance Report on pages 40 to 44 and the Audit Committee Report on pages 45 and 46 form part of this Directors' Report.

The Directors consider that the annual report and accounts, taken as a whole, is fair, balanced and understandable and provides the information necessary for shareholders to assess the Company's position, performance, business model and strategy.

Directors

Brief biographical notes on the Directors are given on page 35.

In accordance with the Articles of Association of the Company, Andy Raynor and Virginia (Connelly) Bull will retire as Directors at the AGM and, being eligible, offer themselves for re-election. As announced previously, Keith Mullins will be retiring from the Board on the conclusion of the business of the 2026 AGM. Following a formal performance evaluation as part of the Board evaluation, the Board believes that all the Directors continue to be effective Non-Executive Directors, providing considerable experience and continuity to the Company and demonstrating commitment to their roles. In addition the Board has discussed succession planning, and further details of both of these matters can be found on page 42.

Directors' and officers' liability insurance

The Company has, as permitted by s236 of the Companies Act 2006, maintained insurance cover on behalf of the Directors and Secretary indemnifying them against certain

liabilities which may be incurred by them in relation to the Company.

VCT regulations

Compliance with required rules and regulations is considered when all investment decisions are made. The Company is further monitored on a continual basis to ensure compliance. The main criteria which the Company must adhere to are detailed on page 84.

The Company will continue to ensure its compliance with the qualification requirements.

Going concern

The Company's business activities and the factors likely to affect its future development, performance and position are set out in the Chair's Statement and Investment Manager's Review on pages 3 to 5 and pages 9 to 19. Further details on the management of financial risk may be found in the Business Review on page 24 and in note 17 to the financial statements.

The Board receives regular reports from the Investment Manager and the Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for a period at least 12 months from the date of approval of the financial statements. As discussed in the Viability Statement on page 40, the Directors have considered the Company's cash flow projections in a range of scenarios, including both continuation of normal levels of fundraising as well as potential 'no fundraise' scenarios. In all scenarios the Board is confident in the ability of the Company to maintain its VCT status and meet its liabilities as they fall due. Some of the ways in which the Board could

manage the operations of the Company include adjusting investment strategy and careful consideration of non-committed cash outflows, including dividends and buybacks. They are satisfied that no material uncertainties leading to significant doubt about going concern have been identified. It is appropriate to continue to adopt the going concern basis in preparing the financial statements. The assets of the Company include securities, a large proportion of which are readily realisable and, accordingly, the Company has adequate financial resources to continue to satisfy the expenses of commitments under share buybacks and to remain in operational existence for a period of at least 12 months.

A resolution will be put to the Company's AGM, details on page 89, to approve the Company continuing as a Venture Capital Trust. A continuation vote has been approved by shareholders annually since 2009.

Dividend

The proposed final dividend of 1.8p for the year ended 30 November 2025 will be paid on 29 May 2026 to shareholders on the register on 1 May 2026 subject to approval at the AGM being held on 19 May 2026, as set out in the Strategic Report.

Management

The Company has in place an agreement with Octopus to act as Investment Manager which is central to the ability of the Company to continue in business. The principal terms of the Company's management agreement with Octopus are set out in note 3 to the financial statements. The Investment Manager also provides secretarial, administrative and custodian services to the Company.

Directors' report continued

There are no other contracts which are deemed to be essential to the business of the Company.

As required by the UK Listing Rules, the Directors confirm that, in their opinion, the continuing appointment of Octopus as Investment Manager is in the best interest of the shareholders as a whole. In reaching this conclusion the Directors have taken into account the performance of the investment portfolio and the ability of the Investment Manager to produce satisfactory investment performance in the future. No Director has an interest in any contract to which the Company is a party.

The Board has delegated the routine management decisions such as the payment of standard running costs to Octopus. Investment decisions are discussed with the Board.

Whistleblowing

The Board has considered the arrangements implemented by the Investment Manager to encourage staff of the Investment Manager or Company Secretary of the Company to raise concerns, in confidence, within their organisation about possible improprieties in matters of financial reporting or other matters. It is satisfied that adequate arrangements are in place to allow an independent investigation, and follow-on action where necessary, to take place within the organisation. During the year no matters were raised under the Investment Manager's whistleblowing policy process.

Employee, human rights, social and community issues

The Board seeks to conduct the Company's affairs responsibly. The Company is required by company law to provide details of employee, human rights, social and

community issues, including information about any policies it has in relation to these matters and the effectiveness of such policies. As an externally managed investment company with no employees the Company does not maintain specific policies in relation to these matters.

Environment policy and greenhouse gas emissions

The Board has no specific environmental policy; however, the Company recognises the need to conduct its business, including investment decisions, in a manner that is environmentally responsible wherever possible. The Company does not produce any reportable emissions as the fund management is outsourced to the Investment Manager with no physical assets or property held by the Company. As the Company has no employees or operations, it is not responsible for any direct emissions, and as it uses less than 40,000 kWh of energy during the reporting year it is exempt from Streamlined Energy and Carbon Reporting (SECR) requirements.

Financial risk management

The most significant financial risks arising from the Company's financial instruments are market risk, interest rate risk, credit risk and liquidity risk. The policies for managing these risks are regularly reviewed by the Board and full details can be found in note 17 to the financial statements.

Bribery Act

Octopus has an Anti-Bribery policy which includes robust procedures to ensure full compliance with the Bribery Act 2010 and to ensure that the highest standards of professional ethical conduct are maintained. All Octopus employees and

those working for, or on behalf of, the Investment Manager are aware of their legal obligations when conducting Company business.

Share capital

The Company's Ordinary share capital as at 30 November 2025 comprised 209,756,363 Ordinary shares of 0.01p each.

The voting rights of the Ordinary shares on a show of hands, or on a poll, are one vote for each share held. There are no restrictions on the transfer of the Ordinary shares and there are no shares that carry special rights with regard to the control of the Company.

Share issues

After the reporting period, on 12 January 2026, a prospectus offer was launched alongside Octopus AIM VCT plc to raise a combined total of up to £30 million with a £30 million over-allotment facility.

In the year, 23,161,892 shares were issued, raising £9 million after costs. This was allocated as follows:

During the year 19,337,827 shares were issued under the fundraise that launched on 23 September 2024, raising £7.6 million after costs.

During the year 3,784,407 shares were issued to those shareholders who elected to receive shares under the Dividend Reinvestment Scheme as an alternative to dividends. This raised £1.4 million.

An additional 39,658 shares were issued to shareholders as a result of reduced adviser charges. These shares were issued to those investors who, in accordance with the adviser charging terms contained in each fundraising document offered to the

Directors' report continued

public and published since 31 December 2012 following the introduction of the retail distribution, had chosen to pay their adviser less than the 0.5% ongoing adviser charge; and to employees, who have been rebated the annual management charge.

Share buybacks and redemptions

During the year, the Company purchased 8,808,822 Ordinary shares with a nominal value of 0.01p for cancellation at a weighted average price of 36.7p per share (2024: 5,783,439 shares at a weighted average price of 43.8p per share) for a total consideration of £3.2 million (2024: £2.5 million). This represents 4% of the closing share capital. These were repurchased in accordance with the Company's share buyback facility to assist the marketability of the shares and prevent the shares trading at a wide discount to the NAV.

Post balance sheet events

A full list of post balance sheet events since 30 November 2025 can be found in note 18 to the financial statements on page 77.

Rights attaching to the shares and restrictions on voting and transfer

Subject to any suspension or abrogation of rights pursuant to relevant law or the Company's Articles of Association, the Ordinary shares confer on their holders (other than the Company in respect of any Treasury shares) the following principal rights:

- (a) the right to receive profits available for distribution, such dividends as may be agreed to be paid (in the case of a

final dividend in an amount not exceeding the amount recommended by the Board as approved by shareholders in a general meeting or in the case of an interim dividend in an amount determined by the Board). All dividends unclaimed for a period of 12 years after having become due for payment are forfeited automatically and cease to remain owing by the Company;

- (b) the right, on a return of assets on a liquidation, reduction of capital or otherwise, to share in the surplus assets of the Company remaining after payment of its liabilities pari passu with the other holders of Ordinary shares; and
- (c) the right to receive notice of and to attend and speak and vote in person or by proxy at any general meeting of the Company. On a show of hands, every member present or represented and voting has one vote, and on a poll, every member present or represented and voting has one vote for every share of which that member is the holder. The appointment of a proxy must be received not less than 48 hours before the time of the holding of the relevant meeting or adjourned meeting or, in the case of a poll taken otherwise than at or on the same day as the relevant meeting or adjourned meeting, be received after the poll has been demanded and not less than 24 hours before the time appointed for the taking of the poll.

These rights can be suspended. If a member, or any other person appearing to be interested in shares held by that member, has failed to comply within the time limits specified in the Company's Articles of Association with a notice pursuant to s793 of the Companies Act 2006 (notice by the Company requiring information about interests in its shares), the Company can, until the default ceases, suspend the right to attend and speak and vote at a general meeting. If the

shares represent at least 0.25% of their class the Company can also withhold any dividend or other money payable in respect of the shares (without any obligation to pay interest) and refuse to accept certain transfers of the relevant shares. Shareholders, either alone or with other shareholders, have other rights as set out in the Company's Articles of Association and in company law (principally the Companies Act 2006).

A member may choose whether their shares are evidenced by share certificates (certificated shares) or held in electronic (uncertificated) form in CREST (the UK electronic settlement system). Any member may transfer all or any of their shares, subject in the case of certificated shares to the rules set out in the Company's Articles of Association or in the case of uncertificated shares to the regulations governing the operation of CREST (which allow the Directors to refuse to register a transfer as therein set out); the transferor remains the holder of the shares until the name of the transferee is entered in the Register of Members. The Directors may refuse to register a transfer of certificated shares in favour of more than four persons jointly or where there is no adequate evidence of ownership or the transfer is not duly stamped (if so required). The Directors may also refuse to register an Ordinary share transfer if it is in respect of a certificated share which is not fully paid up or on which the Company has a lien provided that, where the share transfer is in respect of any share admitted to the Official List maintained by the UK Listing Authority, any such discretion may not be exercised so as to prevent dealings taking place on an open and proper basis, or if, in the opinion of the Directors (and with the concurrence of the UK Listing Authority), exceptional circumstances so warrant, provided that the exercise of such power will not disturb the market in those shares. Whilst there

Directors' report continued

are no squeeze-out and sell-out rules relating to the shares in the Company's Articles of Association, shareholders are subject to the compulsory acquisition provisions in s974 to s991 of the Companies Act 2006.

Independent auditor and disclosure of information to auditor

BDO LLP is the appointed auditor of the Company and offer themselves for re-appointment. A resolution to re-appoint BDO LLP as auditor and authorise the Directors to determine their remuneration will be proposed at the forthcoming AGM.

As far as the Directors are aware, there is no relevant audit information of which the auditor is unaware and the Directors have taken all the steps they ought to have taken as Directors in order to make them aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

Resolutions being put to shareholders in 2026 Directors' authority to allot shares, to disapply pre-emption rights

The authority proposed under Resolution 8 is required so that the Directors may issue shares in connection with offers, if the Directors believe this to be in the best interests of the Company and the shareholders as a whole. Any issue proceeds will be available for investment in line with the Company's investment policy and may be used, in whole or part, to purchase Ordinary shares in the market. Resolution 8 renews the Directors' authority to allot Ordinary shares (representing approximately 20% of the Company's issued share capital at the date of the Notice of AGM). The authority conferred by this Resolution will expire on the date falling

15 months after the date of the passing of the Resolution or, if earlier, at the conclusion of the next AGM of the Company. Any shares allotted under this authority would be issued at prices at or above NAV.

Resolution 9 authorises the Directors to allot Ordinary shares in connection with the Dividend Re-investment Scheme ('DRIS'), up to 5% of the Company's issued share capital at the date of the Notice of AGM. Such authority will expire 15 months after the passing of the Resolution.

Resolutions 10 and 11 renew and extend the Directors' authority to allot equity securities for cash without pre-emption rights applying in certain circumstances. The Resolutions will authorise the Directors, until the date falling 15 months after the date of the passing of the Resolutions or, if earlier, the conclusion of the next AGM of the Company, to issue Ordinary shares for cash without pre-emption rights applying by way of an offer to existing shareholders. These powers will be exercised only if, in the opinion of the Directors, it would be in the interests of shareholders as a whole. Any shares allotted under this authority would be issued at prices at or above NAV.

Directors' authority to make market purchases of its own shares

The authority proposed under Resolution 12 is required so that the Directors may make purchases of up to 30,797,597 Ordinary shares (representing approximately 14.99% of the Company's issued share capital at the date of the Notice of AGM) and the Resolution seeks renewal of such authority until the next AGM (or the expiry of 15 months, if earlier). Any shares bought back under this authority will be at a price determined by the Board, (subject to a minimum of 0.01p

(being the nominal value of such shares) and a maximum of 5% above the average mid-market quotation for such shares on the London Stock Exchange and the applicable regulations thereunder). This power will be exercised only if, in the opinion of the Directors, a repurchase would be in the best interests of shareholders as a whole. Any shares repurchased under this authority will either be cancelled or held in Treasury for future re-sale in appropriate market conditions.

Cancellation of share premium account

The Board considers it appropriate to obtain shareholders' approval for the cancellation of the remaining amount standing to the share premium account of the Company to create (subject to Court approval) a pool of distributable reserves. A Special Resolution to this effect is being proposed at Resolution 13.

Substantial shareholdings

As at the date of this report, no disclosures of major shareholdings had been made to the Company under Disclosure Guidance and Transparency Rule 5 (Vote Holder and Issuer Notification Rules).

On behalf of the Board

Keith Mullins

Chair

3 March 2026

Corporate governance report

The Board of the Company has considered the principles and recommendations of the Association of Investment Companies Code of Corporate Governance ('AIC Code'). The AIC Code addresses the Principles and Provisions set out in the UK Corporate Governance Code ('UK Code'), as well as setting out additional Provisions on issues that are of specific relevance to the Company.

The Board considers that reporting against the principles and provisions of the AIC Code, which has been endorsed by the Financial Reporting Council, provides more relevant information to shareholders.

Corporate governance within the closed-ended investment company industry differs from that of other companies. In addition, VCTs differ from most other investment companies in that they have, developed over many years, a complex range of additional legal, tax and regulatory requirements.

Octopus AIM VCT 2 plc, as a VCT and closed-ended investment company, has particular factors which have an impact on its governance arrangements. The Company:

- outsources all day-to-day activities (such as portfolio management, administration, accounting, custody and company secretarial). This means that it is governed entirely by a Board of Non-Executive Directors. In these circumstances, the proper oversight of these relationships is the key aspect of achieving good corporate governance;
- does not have executive directors or employees. As a consequence, the only 'corporate memory' is that of the Non-Executive Directors; and

- does not have customers, only shareholders.

The AIC Code deals with matters such as the relationship with the Investment Manager and other service providers. In practice, most of the time spent by the Board of a well-functioning investment company should be spent on matters of general corporate governance (e.g. the investment strategy, policy and performance) which is what we do.¹

The Company is committed to maintaining high standards in corporate governance. The Directors consider that the Company has, throughout the year under review, complied with the provisions set out in the AIC Code with the exceptions set out in the Compliance Statement on page 44.

Viability statement

As part of their continuing programme of monitoring risk the Directors have assessed the prospects of the Company over a longer period than the minimum of twelve months required by the 'going concern' provision. The Board conducted this review for a period of five years, which was considered to be a reasonable time horizon given that the Company has raised funds under an offer for subscription and, under VCT rules, subscribing investors are required to hold their investment for a five-year period in order to benefit from the associated tax reliefs. The Board regularly considers the Company's strategy, including investor demand for the Company's shares, and a five-year period is considered to be a reasonable time horizon for this.

The Board carried out a robust assessment of the emerging and principal risks facing the Company and its current position. This includes the impact of economic, market, political, and geo-political uncertainty and any other risks which may adversely impact its business model such as future performance, solvency or liquidity. Particular consideration was given to the Company's reliance on, and close working relationship with, the Investment Manager and the ability to raise new capital. The principal risks faced by the Company and the procedures in place to monitor and mitigate them are set out on pages 28 to 31.

The Board has also considered the liquidity of the underlying investments and the Company's cash flow projections and found these to be realistic and reasonable. The Company's cash flow includes cash equivalents which are short-term, highly liquid investments.

Based on the above assessment the Board confirms that it has a reasonable expectation that the Company will be able to continue in operation and meet its liabilities as they fall due over the five-year period to 30 November 2030.

Board of Directors

The Company has a Board of four Non-Executive Directors, all of whom are considered by the Board to be independent. The Board meets at least four times a year, and on other occasions as required, to review the investment performance and monitor compliance with the investment policy laid down by the Board.

¹ Please see the AIC Code at www.theaic.co.uk

Corporate governance report continued

The Board has a formal schedule of matters specifically reserved for its decision which include:

- the consideration and approval of future developments or changes to the investment policy, including risk and asset allocation;
- consideration of corporate strategy;
- approval of the appropriate dividend to be paid to the shareholders;
- the appointment, evaluation, removal and remuneration of the Investment Manager;
- the performance of the Company, including monitoring of the discount of the NAV to the share price; and
- monitoring shareholder profiles and considering shareholder communications.

The Chair leads the Board in the determination of its strategy and in the achievement of its objectives. The Chair is responsible for organising the business of the Board, ensuring its effectiveness and setting its agenda, and has no involvement in the day-to-day business of the Company. He facilitates the effective contribution of the Directors and makes sure that they receive accurate, timely and clear information and that they communicate effectively with shareholders.

The Company Secretarial function is discharged by Octopus Company Secretarial Services Limited which is responsible for advising the Board, through the Chair, on all governance matters. All of the Directors have access to the advice and services of the Company Secretary, which has administrative responsibility for the meetings of the Board and its committees. Directors may also take independent professional advice at the Company's expense where necessary in the performance of their duties.

As all of the Directors are non-executive, it is not considered necessary to identify a member of the Board as the senior independent director of the Company.

The Company's Articles of Association and the schedule of matters reserved for the Board for decision provide that the appointment and removal of the Company Secretary is a matter for the full Board.

During the year the following meetings were held as part of the regular programme of meetings:

	Full Board meetings held	No. of meetings attended	Audit Committee meetings held	Audit Committee meetings attended
Keith Mullins	4	4	3	3
Andy Raynor	4	4	3	3
Brad Ormsby	4	4	3	3
Virginia (Connelly) Bull	4	4	3	3

Additional meetings were held as required to address specific issues, including approval of the Company's annual reports and accounts and half-yearly results.

Performance evaluation and independence of Directors

Each year a formal performance evaluation is undertaken of the Board, its Committees and the Directors in the form of a questionnaire completed by each Director. The Chair provides a summary of the findings to the Board, which is discussed and an action plan agreed. During the year no issues were identified requiring an action plan. The performance of the Chair is evaluated by the other Directors.

Brad Ormsby is the Chief Financial Officer and a shareholder of Judges Scientific plc, in which the Company has an investment, and so absents himself from any Board decisions relating to that investment. Judges Scientific plc are a client of Investec Bank plc and consequently Virginia (Connelly) Bull as a Director of the Investec Bank plc Corporate Broking team was known to Brad Ormsby before her appointment to the Board. As part of the recruitment process the Board were satisfied this did not present a conflict. We believe that, in line with the AIC Code, all members of the Board are independent in character and judgement with

Corporate governance report continued

respect to their duties to the shareholders. Keith Mullins, Chair of the Company, has served on the Board for 20 years since his initial appointment. He is still considered to be independent in the absence of a connection with the Investment Manager or any of the Company's advisers. Andy Raynor, who was appointed in 2005, is also considered independent for the same reason. As announced by the Company on 9 January 2026, Keith Mullins has indicated that he will retire from the Board from the conclusion of the 2026 AGM. In relation to succession planning, the Board have considered the skills and experience of existing Directors and determined that Andy Raynor will succeed Keith Mullins as Chair of the Company upon his retirement. Brad Ormsby will replace Andy Raynor as Audit Committee Chair of the Company. Recruitment for a further Non-executive Director is ongoing and an update will be provided in due course.

Length of service

	Date of original appointment	Date of last election/re-election
Keith Mullins	14 September 2005	AGM 2025
Andy Raynor	14 September 2005	AGM 2024
Brad Ormsby	1 January 2022	AGM 2025
Virginia (Connelly) Bull	1 January 2024	AGM 2024

Length of service of the Chair and other Directors is one of a number of factors taken into account when considering the contribution and ongoing independence of the Board, both individually and in terms of overall composition, and when considering succession planning. The Board considers the experience, range of skills, knowledge of the Company and its operating environment and diversity of the Directors. Accordingly, the Board's policy on tenure is that the term the Chair and other Directors serve on the Board should not be restricted to a fixed time limit in order to ensure sufficient corporate memory and consistent adherence to strategy.

Powers of the Directors

Subject to the provisions of the Companies Act 2006, the Memorandum and Articles of Association of the Company and any directions given by shareholders by Special Resolution, the Articles of Association specify that the business of the Company is to be managed by the Directors, who may exercise all the powers of the Company, whether relating to the management of the business or not. In particular the Directors may exercise on behalf of the Company its powers to purchase its own shares to the extent permitted by shareholders. Authority was given at the Company's 2025 AGM to make market purchases of up to 14.99% of the issued Ordinary share capital at any time up to the 2026 AGM and otherwise on the terms set out in the relevant resolution and renewed authority is being sought at the 2026 AGM as set out in the notice of meeting.

Board committees

It should be noted that there is no formal Management Engagement Committee as matters of this nature are dealt with by the independent Non-Executive Directors. The Board does not have a separate Remuneration Committee as the Company has no employees or executive directors. Detailed information relating to the remuneration of Directors is given in the Directors' Remuneration Report on pages 47 to 49. The Board does not have a separate Nomination Committee as there has not been a requirement for a Committee. Whilst diversity considerations would normally be a function of a Nomination Committee, these are dealt with by the Board as a whole on an annual basis. The Board considers its composition to be appropriate with due regard for the benefits of diversity and gender.

Audit Committee

Andy Raynor is Chair of the Audit Committee and all Directors are members of this Committee, including the Chair, which is considered appropriate based on the limited number of Directors. The Board confirms that, in accordance with the recommendation of the AIC Code, at least one member of the Audit Committee has recent and relevant financial experience. Both Andy Raynor and Brad Ormsby are Chartered Accountants and have recent and relevant financial experience. The Board is confident that the Committee as a whole has competence relevant to the sector in which the Company operates.

The Audit Committee Report is given on pages 45 and 46.

Corporate governance report continued

Internal controls

The purpose of these controls is to ensure that proper accounting records are maintained, the Company's assets are safeguarded and the financial information used within the business and for publication is accurate and reliable; such a system can only provide reasonable and not absolute assurance against material misstatement or loss. The system of internal controls is designed to manage rather than eliminate the risk of failure to achieve the business objectives. The Board regularly reviews financial results and investment performance with its Investment Manager.

The Board delegates the identification of appropriate opportunities and the investment of funds to the Investment Manager. The Board regularly review reports upon the investments made and on the status of existing investments. The Investment Manager is also engaged to carry out the accounting and custodian functions of the Company. All quoted investments are held in CREST. Unquoted investments are held in certificated form.

The Directors confirm that they have established a continuing process throughout the year and up to the date of this report for identifying, evaluating and managing the significant potential risks faced by the Company and have reviewed and were satisfied with the effectiveness of the internal control systems. As part of this process, an annual review of the Investment Manager's internal control systems is carried out, by Octopus, in accordance with the Financial Reporting Council's Guidance on Risk Management, Internal Control and Related Financial and Business Reporting. As

explained in the Audit Committee Report, the Board does not consider it necessary to maintain an internal audit function.

Internal control systems include the production and review of monthly bank reconciliations and management accounts. All outflows made from the VCT's accounts require the authority of two signatories from Octopus. The Investment Manager is subject to ongoing review by the Octopus Compliance Department.

Financial risk management objectives and policies

The Company is exposed to the risks arising from its operational and investment activities. Further details can be found in note 17 to the financial statements.

Statement of voting at the Annual General Meeting

The most significant portion of the votes cast against a resolution at the 2025 AGM were for the resolutions relating to the approval of the Directors' Remuneration Report (3.37% of votes cast) and the empowerment to make allotments of equity securities (3.3% of votes cast). No communication was received from shareholders giving reasons for the votes against the resolutions.

Shareholders' views are always welcomed and considered by the Board. The methods of contacting the Board are set out in the following section.

Relations with shareholders

The Investment Manager will provide an update on the Company's activities and future plans at the AGM to be held on 19 May 2026. This will also provide an opportunity for shareholders to ask questions of the Board relating to the AGM resolutions and annual report and accounts.

We always welcome questions from our shareholders at the AGM, which will take place on 19 May 2026 at 10.30am. To ensure we are able to respond to any questions you may have for either the Investment Manager or Octopus AIM VCT 2 plc Board, please send these via email to AIMVCT2AGM@octopusinvestments.com by 5.00pm on 14 May 2026. Alternatively, please contact the team at Octopus to answer any queries. They can be contacted on **0800 316 2295**.

Corporate Governance Code

The Board are aware of the revised UK Corporate Governance Code as published by the FRC on 22 January 2024, which applies to accounting periods beginning on or after 1 January 2025, with the exception of a new provision (29) relating to risk management and internal controls, which will be applicable for accounting periods beginning on or after 1 January 2026. The Board are further aware of the updated Association of Investment Companies Code of Corporate Governance as published in August 2024, which applies to accounting periods beginning on or after 1 January 2025, with the exception of provision 34 which will be applicable for accounting periods beginning on or after 1 January 2026.

Corporate governance report continued

Compliance statement

The Board recognises the importance of good governance. With the exception of the limited items outlined below, the Board believes, for the year ended 30 November 2025, the Company has complied with the principles and provisions of the AIC Code:

1. the Company does not have a senior independent director. The Board does not consider this necessary for the size of the Company;
2. the Company does not have a separate Nomination Committee due to the relatively small size and structure of the Company. Appointments are dealt with by the full Board as and when appropriate;
3. the Company does not have a Remuneration Committee given the size of the Company and as it does not have any executive directors. The whole Board deals with any matters pertaining to remuneration;
4. the Company has no major shareholders therefore shareholders are not given the opportunity to meet any Non-Executive Directors at a specific meeting other than the AGM, but are welcome to contact the Board or Octopus at any time; and

5. the Directors are not subject to annual re-election. This is to ensure experience is retained on the Board. As highlighted earlier, the Board considers all the Directors to be independent.

By Order of the Board

Keith Mullins
Chair
3 March 2026

Audit Committee report

This report is submitted in accordance with The AIC Code in respect of the year ended 30 November 2025 and describes the work of the Audit Committee in discharging its responsibilities.

The Committee's key objective is the provision of effective governance of the appropriateness of the Company's financial reporting, the performance of the auditor and the management of the internal control and business risk systems. The Directors forming the Audit Committee can be found on page 35.

Matters considered by the Audit Committee in the year

The Audit Committee's terms of reference include the following responsibilities:

- reviewing and making recommendations to the Board in relation to the Company's published financial statements and other formal announcements relating to the Company's financial performance;
- reviewing and making recommendations to the Board in relation to the Octopus internal controls (including internal financial control) and risk management systems to the extent they are relevant to the Company's internal controls;
- periodically considering the need for an internal audit function;
- making recommendations to the Board in relation to the appointment, re-appointment and removal of the external auditor and approving the remuneration and terms of engagement of the external auditor;

- reviewing and monitoring the external auditor's independence and objectivity and the effectiveness of the audit process, taking into consideration relevant UK professional regulatory requirements;
- monitoring the extent to which the external auditor is engaged to supply non-audit services; and
- ensuring that the Investment Manager has arrangements in place for the investigation and follow-up of any concerns raised confidentially by staff in relation to propriety of financial reporting or other matters.

The Committee reviews its terms of reference and its effectiveness annually and recommends to the Board any changes required as a result of the review. The terms of reference are available on request from the Company Secretary.

The Committee meets at least twice per year and has direct access to BDO LLP, the Company's external auditor.

Auditor appointment

The Audit Committee undertook a competitive audit tender process in 2018 as required for all Public Interest Entities who have had the same auditor for ten years, following which BDO LLP were re-appointed. When considering whether to recommend the re-appointment of the external auditor, the Committee take into account the tenure of the current auditor in addition to comparing the fees charged to similar sized VCTs. The current auditor was appointed in 2008 under the name of PKF (UK) LLP, which subsequently merged with BDO LLP, and has held the position for 18 years. Under FRC ethical standards an audit tender and rotation of auditor will

be mandatory for the year ended 30 November 2028. The year ended 30 November 2025 represents Elizabeth Hooper's third year as audit partner.

Independence and objectivity of the auditor

No non-audit services were provided by the external auditor during the period. The external auditor confirmed that they have not identified any other relationships or threats that may reasonably be thought to bear on their objectivity and independence which was agreed by the Audit Committee.

When considering the effectiveness of the external audit, the Board considered the quality and content of the Audit Plan and Report provided to the Committee by the auditor and the resultant reporting and discussions on topics raised. Further consideration is also given as part of the annual Board evaluation.

Auditor evaluation

The effectiveness of the external audit is assessed as part of the Board evaluation conducted annually and by the quality and content of the Audit Plan and Report provided to the Committee by the auditor and the resultant discussions on topics raised. The Committee also engages with the auditor when present at a Committee meeting, if appropriate. The Audit Committee is satisfied that BDO LLP provided effective challenge in carrying out its responsibilities.

Once the Committee has made a recommendation to the Board, in relation to the appointment of the external auditor, this is then ratified at the AGM through an Ordinary Resolution.

Audit Committee report continued

Internal audit

The Company does not have an independent internal audit function as it is not deemed appropriate given the size of the Company and the nature of the Company's business. However, the Committee considers annually whether there is a need for such a function and if so would recommend this to the Board. Octopus has an internal audit team, which is supported as required by external consultants. The Octopus Compliance Department reports to the Board on the outcome of the internal audits that have taken place insofar as these relate to the Company and confirms the absence of any issues relating to internal audit of which the Board should be aware. Octopus undertakes to immediately raise to the Committee any significant issues arising from the Octopus internal audit that affect the Company.

The Committee will monitor the significant risks at each meeting and Octopus will work closely with the internal auditor to mitigate the risks and the resultant impact.

Financial reporting matters

The Audit Committee is responsible for considering issues in relation to the financial statements, which are either significant financial reporting matters or other financial reporting matters. The Committee has identified the most significant financial reporting matter for the Company as:

- **Valuation and existence of investments:** The Committee gives special audit consideration to the valuation of investments and supporting data provided by Octopus. The impact of this risk would be a large gain or

loss in the Company's results. The valuations are supported variously by stock market quotations, portfolio company audited accounts, third party evidence and (where relevant for unquoted investments) valuations confirmed to be in accordance with IPEV guidelines. These, together with reconciliations and independent confirmations performed by the auditor give comfort to the Audit Committee.

The Committee has identified the following as other financial reporting matters:

- **Management override of financial controls:** The Committee specifically review all significant accounting estimates that form part of the financial statements and consider any material judgements applied by management during the completion of the financial statements.
- **Recognition and categorisation of revenue from investments:** Investment income is the Company's main source of revenue. The revenue return is recognised when the Company's right to the return is established in accordance with the Statement of Recommended Practice, as either revenue or capital income. Octopus confirms to the Audit Committee that the revenues are recognised appropriately.

In addition to the above, the Committee has also considered the implications of inflation and interest rates. As at the date of issuing this Report, whilst the Committee anticipates further market volatility affecting the underlying

investments, it does not consider that this will have an impact upon the long-term viability of the Company. This is discussed further in the Viability Statement on page 40. These issues were discussed with Octopus and the auditor at the conclusion of the audit of the financial statements.

The Committee has considered the annual report and accounts for the year ended 30 November 2025 and has reported to the Board that it considers them to be fair, balanced and understandable, providing the information necessary for shareholders to assess the Company's position, performance, business model and strategy.

The Audit Committee is also responsible for considering and reporting on any significant issues that arise in relation to the audit of the financial statements. The Audit Committee can confirm that there were no significant issues to report to the shareholders in respect of the audit of the financial statements to 30 November 2025.

Andy Raynor
Audit Committee Chair
3 March 2026

Directors' remuneration report

Introduction

This report is submitted in accordance with Regulation 3 of the Large and Medium-sized Companies and Groups (Accounts and Reports) (Amendment) Regulations 2013 ('Regulations') in respect of the year ended 30 November 2025.

The Company's auditor, BDO LLP, is required to give their opinion on certain information included in this report; comprising the Directors' emoluments section and the Directors' interest in shares below as set out on pages 48 and 49.

Consideration by the Directors of matters relating to Directors' remuneration

The Board as a whole considers Directors' remuneration and has not appointed a separate committee in this respect.

The Board has not sought advice or services from any external person in respect of its consideration of Directors' remuneration during the year although the Directors expect from time to time to review the fees against those paid to the boards of directors of other VCTs. The Company does not have a chief executive officer, senior management or any employees.

Directors' remuneration policy report

The Board consists entirely of Non-Executive Directors, who meet at least quarterly and on other occasions as necessary, to deal with the important aspects of the Company's affairs. Directors are appointed with the expectation that they will serve for a period of at least three years. All Directors are subject to election at the first AGM after their appointment and one third of all Directors are subject to retirement by

rotation at the AGMs. Re-election will be recommended by the Board but is dependent upon shareholder votes.

Each Director receives a letter of appointment. A Director may resign by notice in writing to the Board at any time giving three months' notice. None of the Directors are entitled to compensation payable upon early termination of their contract other than in respect of any unexpired notice period.

The Company's policy is that the fees payable to the Directors should reflect the time spent by the Board on the Company's affairs and the responsibilities borne by the Directors. They should be sufficient to attract candidates of high calibre to be recruited. The policy is for the Chair of the Board and the Chair of the Audit Committee to be paid higher fees than the other Directors in recognition of their more onerous roles. The Remuneration policy is to review the Directors' fees from time to time, benchmarking the fees against other VCT boards, although such review will not necessarily result in any changes. Due to the nature of the Company, there are no employees other than the Directors and therefore no such issues to consider when determining the Directors' remuneration.

The Company's policy is for the Directors to be remunerated in the form of fees, payable monthly in arrears. The fees are not specifically related to the Directors' performance, either individually or collectively. There are no long-term incentive schemes, share option schemes or pension schemes in place. The Board is also entitled to be repaid all reasonable travelling, subsistence and other expenses incurred by them respectively whilst conducting their duties as Directors. No other remuneration or compensation was paid or payable by the Company during the year to any of the current Directors.

There will be no payment for loss of office unless approved by a separate shareholder resolution.

An Ordinary Resolution to approve the remuneration policy of the Company was put to, and approved by, shareholders at the 2023 AGM and will remain in force for a three-year period. An Ordinary Resolution to approve the remuneration policy will be put to the 2026 AGM. The Board will review the remuneration of the Directors if thought appropriate and monitors competitors in the VCT industry on an annual basis.

Annual remuneration report

This section of the report is subject to approval by a simple majority of shareholders at the AGM on 19 May 2026, as in previous years.

Statement of voting at the Annual General Meeting on remuneration matters

The 2024 Remuneration Report was presented to the AGM held on 23 May 2025 and received shareholder approval following voting by way of a poll. Of the 4,250,497 votes received, those for the resolution totalled 92.19%, 4.44% were at the discretion of the Chair and 3.37% of the votes cast were against, with 55,722 votes withheld. The proxy forms returned to the Registrars contained no explanation for the votes against the resolution.

The remuneration policy was approved at the AGM held on 26 April 2023. An Ordinary Resolution will be put to shareholders at the 2026 AGM to approve the remuneration policy.

Shareholders' views are always considered by the Board, and the methods of contacting the Board are set out on page 43.

Directors' remuneration report continued

Company performance

The Board is responsible for the Company's investment strategy and performance, although the management of the Company's investment portfolio is delegated to Octopus through the investment management agreement, as referred to in the Directors' Report. The performance graph on page 25 also shows the performance of the Company on a total return basis, compared to the performance of the FTSE AIM All Share Index, the FTSE SmallCap (excluding investment companies) Index and the FTSE All Share Index.

Directors' fees (audited)

The amount of each Director's fees for the year were:

	Year ended 30 November 2025 £	Year ended 30 November 2024 £
Keith Mullins	32,125	30,250
Andy Raynor	29,375	27,250
Elizabeth Kennedy ¹	n/a	12,375
Brad Ormsby	26,500	24,750
Virginia (Connelly) Bull ²	26,500	22,688
Total	114,500	117,313

The Chair of the Company and Audit Committee Chair receive additional remuneration over the basic Directors' fee in recognition of the additional responsibilities and time commitment, and additionally, to be fair and comparable to similar VCTs.

Directors' fees are considered annually. Following a review, the following fee rates were agreed with effect from 1 June 2025 (previous fees shown in brackets): Chair of the Board £34,000

¹ Retired from the Board on 16 May 2024.

² Appointed to the Board on 1 January 2024 and received fees for 11 months of the year ended 30 November 2024.

(£30,250), Chair of the Audit Committee £32,000 (£27,250), and all other Directors £28,000 (£24,750).

The Directors do not receive any other form of emoluments in addition to the Directors' fees, their total remuneration is not linked to the performance of the Company and no bonuses were or will be paid to the Directors.

Directors' fees annual percentage change

	2025 % Increase/ (Decrease)	2024 % Increase/ (Decrease)	2023 % Increase/ (Decrease)	2022 % Increase/ (Decrease)	2021 % Increase/ (Decrease)
Keith Mullins	6.2	3.9	3.6	7.7	4.0
Andy Raynor	7.8	4.0	4.0	4.2	4.3
Elizabeth Kennedy	(100.0)	(48.9)	9.1	4.8	5.0
Brad Ormsby	7.1	3.9	14.3	n/a	n/a
Virginia (Connelly) Bull	16.8	n/a	n/a	n/a	n/a

Relative importance of spend on pay

The actual expenditure in the current year is as follows:

	Year ended 30 November 2025 £'000	Year ended 30 November 2024 £'000
Total dividends paid	7,569	13,409
Total buybacks	3,230	2,533
Total Directors' fees	115	117

Directors' remuneration report continued

The Directors do not consider there to be any other significant distributions during the year relevant to understanding the relative importance of spend on pay.

Directors' interest in shares (audited)

There are no guidelines or requirements for Directors to own shares in the Company. The interests of the Directors, and their connected persons, in shares of the Company during the year (in respect of which transactions are notifiable under Disclosure Guidance and Transparency Rule 3.1.2) in the issued Ordinary shares of 0.01p are shown in the table below:

	Ordinary shares of 0.01p each 30 November 2025	Ordinary shares of 0.01p each 30 November 2024
Keith Mullins	416,929	416,929
Andy Raynor	21,080	21,080

Directors' responsibilities statement

The Directors are responsible for preparing the Strategic Report, the Directors' Report, the Directors' Remuneration Report and the financial statements in accordance with applicable laws and regulations. They are also responsible for ensuring that the annual report and accounts include information required by the Listing Rules of the Financial Conduct Authority.

Company law requires the Directors to prepare financial statements for each financial year. Under that law the Directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (GAAP), including Financial Reporting Standard 102 – 'The Financial Reporting Standard Applicable in the United Kingdom and Republic of Ireland' (FRS 102), (United Kingdom accounting standards and applicable law). Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs and profit or loss of the Company for that period. In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business; and

- prepare a Strategic Report, a Directors' Report and Directors' Remuneration Report which comply with the requirements of the Companies Act 2006.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions, to disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors are responsible for ensuring that the annual report and accounts, taken as a whole, are fair, balanced and understandable and provides the information necessary for shareholders to assess the Company's performance, business model and strategy.

In so far as each of the Directors is aware:

- there is no relevant audit information of which the Company's auditor is unaware; and
- the Directors have taken all steps that they ought to have taken to make themselves aware of any relevant audit information and to establish that the auditor is aware of that information.

The Directors are responsible for preparing the annual report and accounts in accordance with applicable laws and regulations. Having taken advice from the Audit Committee, the Directors are of the opinion that this report as a whole

provides the necessary information to assess the Company's performance, business model and strategy and is fair, balanced and understandable.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

The Directors confirm that, to the best of their knowledge:

- the financial statements, prepared in accordance with United Kingdom Generally Accepted Accounting Practice, including FRS 102, give a true and fair view of the assets, liabilities, financial position and profit or loss of the Company; and
- the annual report and accounts (including the Strategic Report), give a fair review of the development and performance of the business and the position of the Company, together with a description of the principal risks and uncertainties that it faces.

On behalf of the Board

Keith Mullins

Chair

3 March 2026

Independent auditor's report to the members of Octopus AIM VCT 2 plc

Opinion on the financial statements

In our opinion the financial statements:

- give a true and fair view of the state of the Company's affairs as at 30 November 2025 and of its profit and cash flows for the year then ended;
- have been properly prepared in accordance with having been prepared in accordance with United Kingdom Generally Accepted Practice
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements of Octopus AIM VCT 2 Plc (the 'Company') for the year ended 30 November 2025 which comprise the Income statement, the Balance sheet, the Statement of changes in equity, the Statement of cash flows and Notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland (United Kingdom Generally Accepted Accounting Practice).

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs(UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of

the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion. Our audit opinion is consistent with the additional report to the audit committee.

Independence

Following the recommendation of the audit committee, we were appointed by the Board of Directors to audit the financial statements for the year ended 30 November 2008 and subsequent financial periods. The period of total uninterrupted engagement including retenders and reappointments is 18 years, covering the years ended 30 November 2008 to 30 November 2025. We remain independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard as applied to listed public interest entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements. The non-audit services prohibited by that standard were not provided to the Company.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the Directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate. Our evaluation of the Directors' assessment of the Company's ability to continue to adopt the going concern basis of accounting included:

- Obtaining the VCT compliance reports during the year and

as at year end and reviewing the calculations therein to check that the Company was meeting its requirements to retain VCT status;

- Consideration of the Company's expected future compliance with VCT legislation, the absence of bank debt, contingencies and commitments and any market or reputational risks;
- Reviewing the forecasted cash flows that support the Directors' assessment of going concern, challenging assumptions and judgements made in the forecasts, and assessing them for reasonableness. In particular, we considered the available cash resources relative to the forecast expenditure which was assessed against the prior year for reasonableness; and
- Evaluating the Directors' method of assessing the going concern in light of market conditions.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

In relation to the Company's reporting on how it has applied the UK Corporate Governance Code, we have nothing material to add or draw attention to in relation to the Directors' statement in the financial statements about whether the Directors considered it appropriate to adopt the going concern basis of accounting.

Independent auditor's report to the members of Octopus AIM VCT 2 plc continued

Our responsibilities and the responsibilities of the Directors with respect to going concern are described in the relevant sections of this report.

Overview

		2025	2024
Key audit matters	Valuation and existence of investments	✓	✓
Materiality	£774,000 (2024: £790,000) based on 1% (2024: 1%) of Net assets		

An overview of the scope of our audit

Our audit was scoped by obtaining an understanding of the Company and its environment, including the Company's system of internal control, and assessing the risks of material misstatement in the financial statements. We also addressed the risk of management override of internal controls, including assessing whether there was evidence of bias by the Directors that may have represented a risk of material misstatement.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) that we identified, including those which had the greatest effect on: the overall audit strategy, the allocation of resources in the audit, and directing the efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter

Valuation and Existence of investments (Notes 1 and 10 of the financial statements)

The investment portfolio comprises of £36.6m quoted investments and £13.2m unquoted investments.

The Investment Manager's fee is based on the value of the net assets the fund, as shown in note 3.

As the Investment Manager is also responsible for preparing the valuation of investments for the financial statements, there is a potential risk of misstatement in the investment valuations.

There is a risk that the investment balance includes investments which are no longer owned by the Company or the holdings % may have changed or that the bid price used to value the investment is incorrect.

There is a high level of estimation uncertainty involved in determining the unquoted investment valuations.

There is an inherent risk of management override arising from the unquoted investment valuations being prepared by the Investment Manager, who is remunerated based on a percentage of the value of the net assets of the fund, as shown in note 3.

How the scope of our audit addressed the key audit matter

We assessed the design and implementation of controls in relation to the valuation of investments.

In respect of 100% of quoted equity, we responded to this matter by testing the valuation and existence of the whole portfolio of quoted investments.

We performed the following procedures:

- Confirmed the year-end bid price was used by agreeing to externally quoted prices;
- Assessed if there were contra indicators, such as liquidity considerations, to suggest bid price is not the most appropriate indication of fair value;
- Recalculating the valuation by multiplying the number of shares held per the statement obtained from the custodian by the valuation per share; and
- Obtained direct confirmation from the custodian and agreed all investments held at the balance sheet date to CREST records.

In respect of 21% of unquoted investments we have:

- Challenged and corroborated the inputs to the valuation with reference to management information of investee companies, market data and our own understanding and assessed the impact of the estimation uncertainty concerning these assumptions and the disclosure of these uncertainties in the financial statements;
- Obtained share capital tables directly from the investee company to confirm ownership at year end and recalculated the value attributable to the Company;
- Reviewed the historical financial statements and any recent management information available to support assumptions about maintainable revenues, earnings or cash flows used in the valuations;
- Considered the revenue or earnings multiples applied and the discounts applied by reference to observable listed company market data; and

Independent auditor’s report to the members of Octopus AIM VCT 2 plc continued

For these reasons we considered the valuation and existence of unquoted and quoted investments to be a key audit matter.

- Challenged the consistency and appropriateness of adjustments made to such market data in establishing the revenue, cash flow or earnings multiple applied in arriving at the valuations adopted by considering the individual performance of investee companies against plan and relative to the peer group, the market and sector in which the investee company operates and other factors as appropriate.

In respect of 71% of unquoted investments we have:

- We have agreed the terms of the post year end sale to the respective sale and purchase agreement and cash received.

Where appropriate, we performed a sensitivity analysis by developing our own point estimate where we considered that alternative input assumptions could reasonably have been applied and we considered the overall impact of such sensitivities on the portfolio of investments in determining whether the valuations as a whole are reasonable and free from bias.

Key observations:

Based on the procedures performed we did not identify any matters to suggest the valuation or existence of the investments was not appropriate and we are satisfied that the estimates and judgements made in the unquoted investment valuations are appropriate considering the level of estimation uncertainty.

Our application of materiality

We apply the concept of materiality both in planning and performing our audit, and in evaluating the effect of misstatements. We consider materiality to be the magnitude by which misstatements, including omissions, could influence the economic decisions of reasonable users that are taken on the basis of the financial statements.

In order to reduce to an appropriately low level the probability that any misstatements exceed materiality, we use a lower materiality level, performance materiality, to determine the extent of testing needed. Importantly, misstatements below these levels will not necessarily be evaluated as immaterial as we also take account of the nature of identified misstatements, and the particular circumstances of their occurrence, when evaluating their effect on the financial statements as a whole.

Based on our professional judgement, we determined materiality for the financial statements as a whole and performance materiality as follows:

Company Financial statements		
	2025	2024
Materiality	£774,000	£790,000
Basis for determining materiality	1% of net assets	
Rationale for the benchmark applied	Net asset value is the primary measure used by the users in assessing the performance of the Company as an investment entity. In setting materiality, we have had regard to the nature and disposition of the investment portfolio. Given that the VCT’s portfolio is comprised primarily of quoted investments, we have applied a percentage of 1% of net assets value.	
Performance materiality	£580,000	£592,000
Basis for determining performance materiality	75% of materiality	
Rationale for the percentage applied for performance materiality	The level of performance materiality applied was set after having considered a number of factors including the expected total value of known and likely misstatements and the level of transactions in the year.	

Reporting threshold

We agreed with the Audit Committee that we would report to them all individual audit differences in excess of £38,000 (2024: £39,000). We also agreed to report differences below this threshold that, in our view, warranted reporting on qualitative grounds.

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report and accounts other than the financial statements and our auditor’s report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon. Our responsibility is to read the other

Independent auditor's report to the members of Octopus AIM VCT 2 plc continued

information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Corporate governance statement

The UK Listing Rules require us to review the Directors' statement in relation to going concern, longer-term viability and that part of the Corporate Governance Statement relating to the Company's compliance with the provisions of the UK Corporate Governance Code specified for our review.

Based on the work undertaken as part of our audit, we have concluded that each of the following elements of the Corporate Governance Statement is materially consistent with the financial statements or our knowledge obtained during the audit.

Going concern and longer-term viability	• The Directors' statement with regards to the appropriateness of adopting the going concern basis of accounting and any material uncertainties identified as set out on page 35; and • The Directors' explanation as to their assessment of the Company's prospects, the period this assessment covers and why the period is appropriate as set out on page 39.
Other Code provisions	• Directors' statement on fair, balanced and understandable as set out on page 39; • Board's confirmation that it has carried out a robust assessment of the emerging and principal risks as set out on page 28; • The section of the annual report that describes the review of effectiveness of risk management and internal control systems as set out on page 42; and • The section describing the work of the audit committee as set out on page 44.

Other Companies Act 2006 reporting

Based on the responsibilities described below and our work performed during the course of the audit, we are required by the Companies Act 2006 and ISAs (UK) to report on certain opinions and matters as described below.

Strategic report and Directors' report	In our opinion, based on the work undertaken in the course of the audit: • the information given in the Strategic report and the Directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and • the Strategic report and the Directors' report have been prepared in accordance with applicable legal requirements. In light of the knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified material misstatements in the strategic report or the Directors' report.
Directors' remuneration	In our opinion, the part of the Directors' remuneration report to be audited has been properly prepared in accordance with the Companies Act 2006.
Matters on which we are required to report by exception	We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion: • adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or • the financial statements and the part of the Directors' remuneration report to be audited are not in agreement with the accounting records and returns; or • certain disclosures of Directors' remuneration specified by law are not made; or • we have not received all the information and explanations we require for our audit.

Independent auditor's report to the members of Octopus AIM VCT 2 plc continued

Responsibilities of Directors

As explained more fully in the Directors' responsibilities statement, the Directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the Directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Extent to which the audit was capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below:

Non-compliance with laws and regulations

Based on:

- our understanding of the Company and the industry in which it operates;
- discussion with management and those charged with governance; and
- obtaining an understanding of the Company's policies and procedures regarding compliance with laws and regulations;

we considered the significant laws and regulations to be Companies Act 2006, the UK Listing Rules and Disclosure Guidance and Transparency Rules, the principles of the UK Corporate Governance Code, industry practice represented by the SORP and the applicable financial reporting framework. We also considered the Company's qualification as a VCT under UK tax legislation.

Our procedures in respect of the above included:

- obtaining an understanding of the control environment in monitoring compliance with laws and regulations;

- reviewing minutes of meeting of those charged with governance for instances of non-compliance with laws and regulations;
- enquiries of management and those charged with governance relating to the existence of any non-compliance with laws and regulations;
- agreement of the financial statement disclosures to underlying supporting documentation; and
- obtaining the VCT compliance reports during the year and as at year end and reviewing their calculations to check that the Company was meeting its requirements to retain VCT status.

Fraud

We assessed the susceptibility of the financial statement to material misstatement including fraud.

Our risk assessment procedures included:

- Enquiry with management and those charged with governance regarding any known or suspected instances of fraud;
- Obtaining an understanding of the Company's policies and procedures relating to:
 - Detecting and responding to the risks of fraud; and
 - Internal controls established to mitigate risks related to fraud.
- Review of minutes of meeting of those charged with governance for any known or suspected instances of fraud; and

Independent auditor's report to the members of Octopus AIM VCT 2 plc continued

- Discussion amongst the engagement team as to how and where fraud might occur in the financial statements;

Based on our risk assessment, we considered the areas most susceptible to be management override of controls and the valuation of unquoted investments.

Our procedures in respect of the above included but were not limited to:

- The procedures set out in the Key Audit Matters section above relating to valuation of the unquoted investments;
- Review of estimates and judgements applied by management in the financial statements to assess their appropriateness and the existence of any systematic bias;
- Review and consideration of the appropriateness of adjustments made in the preparation of the financial statements; and
- Review of unadjusted audit differences, if any, for indication of bias or deliberate misstatement.

We also communicated relevant identified laws and regulations and potential fraud risks to all engagement team members who were all deemed to have appropriate competence and capabilities and remained alert to any indications of fraud or non-compliance with laws and regulations throughout the audit.

Our audit procedures were designed to respond to risks of material misstatement in the financial statements, recognising that the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery, misrepresentations or through collusion. There are inherent limitations in the audit procedures performed and the further removed non-compliance with laws and regulations is from the events and transactions reflected in the financial statements, the less likely we are to become aware of it.

A further description of our responsibilities is available on the Financial Reporting Council's website at:

www.frc.org.uk/auditorsresponsibilities

This description forms part of our auditor's report.

Use of our report

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

- The 'Total' column of this statement represents the statutory income statement of the Company prepared in accordance with the accounting policies detailed in the Notes to the financial statements; the supplementary revenue return and capital return columns have been prepared in accordance with the AIC Statement of Recommended Practice.
- All revenue and capital items in the above statement derive from continuing operations.
- The Company has only one class of business and derives its income from investments made in shares and securities and money market funds, as well as OEIC funds.

The Company has no recognised gains or losses other than the results for the period as set out above. Accordingly, a statement of comprehensive income is not required.

The accompanying notes on pages 64 to 77 form an integral part of the financial statements.

The accompanying notes on pages 64 to 77 form an integral part of the financial statements.

Notes to the financial statements

1. Significant accounting policies

The Company is a Public Limited Company (plc) incorporated in England and Wales and its registered office is 6th Floor, 33 Holborn, London, EC1N 2HT.

The Company's principal activity is to invest in a diverse portfolio of predominantly AIM-traded companies with the objective of providing shareholders with attractive tax-free dividends and long-term capital growth.

Basis of preparation

The financial statements have been prepared under the historical cost convention, except for the measurement at fair value of certain financial instruments, and in accordance with UK Generally Accepted Accounting Practice (GAAP), including Financial Reporting Standard 102 – 'The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland' (FRS 102), and with the Companies Act 2006 and the Statement of Recommended Practice (SORP) 'Financial Statements of Investment Trust Companies and Venture Capital Trusts' (issued 2014 and updated in July 2022).

The significant accounting policies have remained unchanged since those set out in the Company's 2024 annual report and accounts. A summary of the principal accounting policies is set out below.

FRS 102 sections 11 and 12 have been adopted with regard to the Company's financial instruments. The Company held all fixed asset investments at fair value through profit or loss (FVTPL); therefore all gains and losses arising from such investments held are attributable to financial assets held at FVTPL. Accordingly, all interest income, fee income, expenses and gains and losses on investments are attributable to assets held at FVTPL.

Going concern

After reviewing the Company's forecasts and expectations, the Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. The annual expenses of the Company are around £1.8 million and the Company had £27.9 million in cash at bank and readily realisable securities, including MMFs and OEICs at the year end. The annual expenses do not include outflows related to share buybacks or dividends but the ability to retain cash

is largely in the Company's control as it can shift investment strategy to ensure it has a sufficient cash buffer. The Company therefore continues to adopt the going concern basis in preparing its financial statements. In reaching this conclusion the Directors have had regard to the potential impact of economic instability on the Company. See the Directors' Report on pages 36 to 39 for further details.

Revenue and capital

The Company presents its Income Statement in a three column format to give shareholders additional detail of the performance of the Company, split between items of a revenue or capital nature as required by the SORP.

The revenue column of the Income Statement includes all income and revenue expenses of the Company. The capital column includes gains and losses on disposal of investments, and gains and losses on the revaluation of investments.

Upon disposal of investments, gains or losses relating to the assets are transferred from the unrealised capital reserve to the realised capital reserve.

Investment management fees are split between revenue (25%) and capital (75%), in line with the Board's expected long-term return in the form of income and capital gains respectively from the Company's investment portfolio.

Key judgements and estimates

The preparation of the financial statements requires the Board to make judgements and estimates that affect the application of policies and reported amounts of assets and liabilities. Estimates and assumptions mainly relate to the fair valuation of the fixed asset investments, particularly unquoted investments. Estimates are based on historical experience and other assumptions that are considered reasonable under the circumstances. The estimates and the assumptions are under continuous review with particular attention paid to the carrying value of the investments.

Investment valuation policies are important to the depiction of the Company's financial position and require the application of subjective and complex judgements, notably with regard to unquoted holdings, often as a result of the need to make estimates about the effects of matters that are inherently uncertain and may change in subsequent periods.

Notes to the financial statements continued

The main accounting and valuation policies used by the Company are disclosed below.

Investments are regularly reviewed to ensure that the fair values are appropriately stated. Unquoted investments are valued in accordance with current IPEV guidelines, although this does rely on subjective estimates such as appropriate sector earnings multiples, forecast results of portfolio companies, asset values of the subsidiary companies of portfolio companies and liquidity or marketability of the investments held.

Although the Company believes that the assumptions concerning the business environment and estimate of future cash flows are appropriate, changes in estimates and assumptions could require changes in the stated values. This could lead to additional changes in fair value in the future (see note 10).

Financial instruments

The Company's principal financial assets are its investments and the policies in relation to those assets are set out above and in note 10. Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the entity after deducting all of its financial liabilities. Where the contractual terms of share capital do not have any terms meeting the definition of a financial liability then this is classed as an equity instrument. Dividends and distributions relating to equity instruments are debited direct to equity.

The Company's trade receivables are initially recognised at fair value which is normally transaction cost and subsequently measured at amortised cost.

Cash and liquid resources

For the purpose of the Cash Flow Statement, cash and cash equivalents comprises, cash at bank and money market funds. Cash equivalents are current asset investments which are disposable without curtailing or disrupting the business and are either readily convertible into known amounts of cash at or close to their carrying values or traded in an active market. Investments in OEICs and MMFs are subject to insignificant changes in fair value.

Financing strategy and capital structure

We define capital as shareholders' funds and our financial strategy in the medium term is to manage a level of cash that balances the risks of the business with optimising the return

on equity. The Company currently has no borrowings nor does it anticipate that it will have any borrowing facilities in the future to fund the acquisition of investments.

The Company does not have any externally imposed capital requirements.

The Board considers the distributable reserves and the total return for the year when recommending a dividend. In addition, the Board is authorised to make market purchases up to a maximum of 14.99% of the issued Ordinary share capital in accordance with Special Resolution 12 in order to maintain sufficient liquidity in the Company's shares.

Reserves

Called up equity share capital – represents the nominal value of shares that have been issued.

Share premium account – includes any premiums received on issue of share capital. Any transaction costs associated with the issuing of shares are deducted from share premium.

Capital redemption reserve – includes nominal share capital which has been bought back by the Company for cancellation and cannot be distributed to shareholders.

Special distributable reserves – includes cancelled share premium available for distribution.

Capital reserve realised – when an investment is sold or an when a loss is considered permanent, any balance held in capital reserve unrealised is transferred to capital reserve realised on disposal, as a movement in reserves. The portion of the management fee allocated to capital expenditure is also included in this reserve. This reserve is available for distribution.

Capital reserve unrealised – when the Company revalues the investments still held during the period, any gains or losses arising are credited/charged to capital reserve unrealised.

Revenue reserve – includes all net revenue profits and losses of the Company. When in surplus this reserve is available for distribution.

Functional and presentational currency

The financial statements are presented in sterling (£). The functional currency is also sterling (£).

Notes to the financial statements continued

2. Income

Accounting policy

Investment income includes interest earned on money market securities and shown net of income tax withheld at source. Dividend income is shown net of any related tax credit. Dividends are allocated to revenue or capital depending on whether the dividend is of a revenue or capital nature.

Dividends receivable are recognised when the Company's right to receive payment is established and it is probable that payment will be received. Fixed returns on debt and money market securities are recognised on a time apportionment basis so as to reflect the effective yield, provided there is no reasonable doubt that payment will be received in due course.

Disclosure

	30 November 2025 £'000	30 November 2024 £'000
Dividends receivable from fixed asset investments	504	590
Loan note interest receivable	81	67
Income receivable on money market securities	718	931
Total	1,303	1,588

3. Investment management fees

	30 November 2025			30 November 2024		
	Revenue £'000	Capital £'000	Total £'000	Revenue £'000	Capital £'000	Total £'000
Investment management fees	326	977	1,303	353	1,058	1,411

Octopus provides investment management and accounting and administration services to the Company under a management agreement which may be terminated at any time

thereafter by not less than 12 months' notice given by either party. No compensation is payable in the event of terminating the agreement by either party, if the required notice period is given. The fee payable, should insufficient notice be given, will be equal to the fee that would have been paid should continuous service be provided, or the required notice period was given. The management fee is an annual charge and is set at 2% of the Company's net assets. The Investment Manager is not entitled to any annual performance incentive scheme.

During the year Octopus charged gross management fees of £1,598,000 (2024: £1,708,000). When the various allowances detailed below are included, the net management fee for the year is £1,303,000 (2024: £1,411,000). At the year end £336,000 was payable to Octopus (2024: £379,000). Octopus received £97,000 as a result of upfront fees charged on allotments of Ordinary shares (2024: £189,000). The increase in upfront fees this year has proportionately increased in line with the value of allotments in the year.

The Company pays ongoing adviser charges to independent financial advisers (IFAs). Ongoing adviser charges are an ongoing fee of up to 0.5% per annum of the amount invested for a maximum of nine years paid to Advisers who are on an advised and ongoing fee structure. The Company is rebated for this cost by way of a reduction in the annual management fee. For the year to 30 November 2025 the rebate received was £83,000 (2024: £108,000).

The Company also facilitates upfront fees to IFAs where an investor has invested through a financial adviser and has received upfront advice. Where an investor agrees to an upfront fee only, the Company can facilitate a payment of an initial adviser charge of up to 4.5% of the investment amount. If the investor chooses to pay their intermediary/adviser less than the maximum initial adviser charge, the remaining amount will be used for the issue and allotment of additional new shares for the investor. In these circumstances the Company does not facilitate ongoing annual payments. To ensure that the Company is not financially disadvantaged by such payment, a notional ongoing adviser charge equivalent to 0.5% per annum of the amount invested will be deemed to have been paid by the Company for a period of nine years. The Company is rebated for this cost, also by way of a reduction in the annual management fee. For the year to 30 November 2025 the rebate received was £163,000 (2024: £134,000).

Notes to the financial statements continued

The Company also receives a reduction in the management fee for the investments in other Octopus managed funds, being the Multi Cap, Micro Cap Growth and Future Generations products, to ensure the Company is not double charged on these products. This amounted to £54,000 for the year to 30 November 2025 (2024: £55,000).

The management fee has been allocated 25% to revenue and 75% to capital, in line with the Board's expected long-term return in the form of income and capital gains respectively from the Company's investment portfolio.

4. Other expenses

Accounting policy

All expenses are accounted for on an accruals basis and are charged wholly to revenue, apart from management fees which are charged 25% to revenue and 75% to capital.

The transaction costs incurred when purchasing or selling assets are written off to the Income Statement in the period that they occur.

Disclosure

	30 November 2025 £'000	30 November 2024 £'000
IFA charges	83	108
Directors' remuneration	115	117
Audit fees	53	51
Registrar fees	56	55
Printing and postage	17	15
VCT monitoring fees	8	18
Legal and professional fees	17	15
Directors' and officers' liability insurance	28	43
Brokers' fees	6	6
Other administration expenses	137	219
Total	520	647

The fees payable to the Company's auditor above are stated net of VAT and the VAT is included within other administration expenses. No non-audit services were provided by the Company's auditor.

The ongoing charges of the Company were 2.3% of average net assets during the year to 30 November 2025 (2024: 2.4%).

5. Directors' remuneration

Total Directors' fees during the year were £114,500 (2024: £117,313). This excludes Employer's National Insurance contributions of £13,800 (2024: £10,300) which have been included within other administration expenses. The highest paid Director received £32,125 (2023: £30,250). None of the Directors received any other remuneration or benefit from the Company during the year. The Company has no employees other than Non-Executive Directors. The average number of Non-Executive Directors in the year was four (2024: five).

6. Tax

Accounting policy

Current tax is recognised for the amount of income tax payable in respect of the taxable profit/(loss) for the current or past reporting periods using the current UK corporation tax rate. The tax effect of different items of income/gain and expenditure/loss is allocated between capital and revenue return on the 'marginal' basis as recommended in the SORP.

Deferred tax is recognised on an undiscounted basis in respect of all timing differences that have originated but not reversed at the balance sheet date, except as otherwise indicated.

Deferred tax assets are only recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Notes to the financial statements continued

Disclosure

The corporation tax charge for the year was £nil (2024: £nil).

	30 November 2025 £'000	30 November 2024 £'000
Profit/(loss) before tax	167	(399)
Current tax at 25% (2024: 25%)	42	(100)
Effects of		
Non-taxable income	(305)	(380)
Non-taxable capital gains	(172)	(18)
Non-deductible expenses	7	10
Excess management expenses on which deferred tax not recognised	428	488
Total tax charge	–	–

Approved VCTs are exempt from tax on capital gains within the Company. Since the Board intends that the Company will continue to conduct its affairs so as to maintain its approval as a VCT, no deferred tax has been provided in respect of any capital gains or losses arising on the revaluation or disposal of investments.

As at 30 November 2025, there is an unrecognised deferred tax asset of £5,648,000 (2024: £5,450,000) in respect of surplus management expenses of £22,591,000 (2024: £21,800,000), based on a prospective tax rate of 25% (2024: 25%). This deferred tax asset could in future be used against taxable profits.

Provided the Company continues to maintain its current investment profile, it is unlikely that the surplus management expenses will be utilised and that the Company will obtain any benefit from this asset.

7. Dividends

Accounting policy

Dividends payable are recognised as distributions in the financial statements when the Company's liability to make a payment has been established. This liability is established on the record date, the date on which those shareholders on the share register are entitled to the dividend.

Disclosure

	30 November 2025 £'000	30 November 2024 £'000
Dividends paid on Ordinary shares during the year		
Final dividend – 1.8p per share paid 29 May 2025 (2024: 1.8p per share)	3,802	3,302
Special dividend – Nil (2024: 3.6p per share)	–	6,605
Interim dividend – 1.8p per share paid 27 November 2025 (2024: 1.8p per share)	3,767	3,502
Total	7,569	13,409

During the year £1,392,000 (2024: £2,452,000) of dividends were reinvested under the DRIS, see note 14.

Under Section 32 of FRS 102 'Events After the end of the Reporting Period', dividends payable at year end are not recognised as a liability. Details of these dividends and all other dividends declared in the year are set out below.

Notes to the financial statements continued

	30 November 2025 £'000	30 November 2024 £'000
Dividends paid and proposed		
Interim dividend – 1.8p per share paid 27 November 2025 (2024: 1.8p per share)	3,767	3,502
Final dividend proposed – 1.8p per share payable 29 May 2026 (2024: 1.8p per share)	3,776	3,517
Special dividend declared – 3.6p per share payable 1 April 2026 (2024: 3.6p per share)	7,551	6,605
	15,094	13,624

The above proposed final dividend is based on the number of shares in issue at the date of this report. The actual dividend paid may differ from this number as the dividend payable will be based on the number of shares in issue on the record date and will reflect any changes in the share capital between the year end and the record date.

8. Earnings per share

	30 November 2025			30 November 2024		
	Revenue £'000	Capital £'000	Total £'000	Revenue £'000	Capital £'000	Total £'000
Profit/(loss) attributable to Ordinary shareholders	457	(290)	167	588	(987)	(399)
Earnings per Ordinary share	0.2p	(0.1)p	0.1p	0.3p	(0.5)p	(0.2)p

The profit/(loss) per share is based on 207,798,492 (2024: 184,864,715) Ordinary shares, being the weighted average number of Ordinary shares in issue during the year, and the profit on ordinary activities after tax for the year of £167,000 (2024: loss of £399,000).

There are no potentially dilutive capital instruments in issue and, as such, the basic and diluted earnings per share are identical.

9. Net asset value per share

	30 November 2025	30 November 2024
Net assets (£'000)	77,423	79,062
Shares in issue	209,756,363	195,403,293
NAV per share (p)	36.9	40.5

There are no potentially dilutive capital instruments in issue and, as such, the basic and diluted NAV per share are identical.

10. Fixed asset investments

Accounting policy

The Company's principal financial assets are its investments and the policies in relation to those assets are set out below.

Purchases and sales of investments are recognised in the financial statements at the date of the transaction (trade date).

These investments will be managed and their performance evaluated on a fair value basis in accordance with a documented investment strategy and information about them has to be provided internally on that basis to the Board. Accordingly, as permitted by FRS 102, the investments are measured as being fair value through profit or loss (FVTPL) on the basis that they qualify as a group of assets managed, and whose performance is evaluated, on a fair value basis in accordance with a documented investment strategy. The Company's investments are measured at subsequent reporting dates at fair value.

In the case of investments quoted on a recognised stock exchange, fair value is established by reference to the closing bid price on the relevant date or the last traded price, depending upon convention of the exchange on which the investment is quoted. In the case of unquoted investments and loan notes, fair value is established by assessing

Notes to the financial statements continued

different methods of valuation, such as price of recent transaction, earnings or revenue-based multiples, discounted cash flows and net assets. Where price of recent investment is used as a starting point for estimating fair value at subsequent measurement dates, this has been benchmarked using an appropriate valuation technique. These methodologies are consistent with IPEV guidelines.

Gains and losses arising from changes in fair value of investments are recognised as part of the capital return within the Income Statement and allocated to the capital reserve unrealised. The Investment Manager reviews changes in fair value of investments for any permanent reductions in value and will give consideration to whether these losses should be transferred to the capital reserve realised.

In the preparation of the valuations of assets the Directors are required to make judgements and estimates that are reasonable and incorporate their knowledge of the performance of the portfolio companies.

Fair value hierarchy

Paragraph 34.22 of FRS 102 recommends following a hierarchy of fair value measurements, for financial instruments measured at fair value in the balance sheet, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). This methodology is adopted by the Company and requires disclosure of financial instruments to be dependent on the lowest significant applicable input, as laid out below:

Level 1: The unadjusted, fully accessible and current quoted price in an active market for identical assets or liabilities that an entity can access at the measurement date.

Level 2: Inputs for similar assets or liabilities other than the quoted prices included in Level 1 that are directly or indirectly observable, which exist for the duration of the period of investment.

Level 3: This is where inputs are unobservable, where no active market is available and recent transactions for identical instruments do not provide a good estimate of fair value for the asset or liability.

	Level 1: Quoted equity investments £'000	Level 2: Quoted equity investments £'000	Level 3: Unquoted investments £'000	Total £'000
Opening cost at 1 December 2024	49,212	–	3,487	52,699
Opening unrealised (loss)/gain as at 1 December 2024	(2,038)	–	6,480	4,442
Valuation as at 1 December 2024	47,174	–	9,967	57,141
Purchases at cost	4,569	–	–	4,569
Disposal proceeds	(13,151)	–	–	(13,151)
Loss on realisation of investments	(1,181)	–	–	(1,181)
Change in fair value in year	(845)	–	3,247	2,402
Closing valuation as at 30 November 2025	36,566	–	13,214	49,780
Closing cost as at 30 November 2025	43,028	–	3,487	46,515
Closing unrealised (loss)/gain as at 30 November 2025	(6,462)	–	9,727	3,265
Valuation as at 30 November 2025	36,566	–	13,214	49,780

Notes to the financial statements continued

The Company received £13,151,000 (2024: £2,214,000) from investments sold in the year. The book cost of these investments when they were purchased was £7,572,000 (2024: £4,965,000). These investments have been revalued over time and until they were sold any unrealised gains/losses were included in the fair value of the investments.

Level 1 valuations are valued in accordance with the bid price on the relevant date. Further details of the fixed asset investments held by the Company are shown within the Investment Manager's Review.

Level 2 investments are valued using other observable inputs not included in Level 1. The Company holds no level 2 investments.

Level 3 investments are reported at Fair Value in accordance with FRS 102 sections 11 and 12, which is determined in accordance with the latest IPEV guidelines. In estimating Fair Value, there is an element of judgement, notably in deriving reasonable assumptions, and it is possible that, if different assumptions were to be used, different valuations could have been attributed to some of the Company's investments.

The Company holds six unquoted investments and two loan note stocks, which are classified as level 3 in terms of fair value hierarchy. These are valued based on a range of valuation methodologies, determined on an investment specific basis. The price of recent investment is used where a transaction has occurred sufficiently close to the reporting date to make this the most reliable indicator of fair value. Where recent investment is not deemed to indicate the most reliable indicator of fair value i.e. the most recent investment is too distant from the reporting date for this to be deemed a reasonable indicator, other market based approaches including earnings multiples, annualised recurring revenues, discounted cash flows or net assets are used to determine a fair value for the investments.

The Company's holdings in Hasgrove Limited and Popsa Holdings make up 92% of the market value of the level 3 investments on the balance sheet. After the year-end, the Company realised its investment in Hasgrove Limited, and the investment was valued at the disposal price. For Popsa Holdings, we have considered possible alternative assumptions. See below for the results of our analysis:

Valuation technique	Portfolio company	Input	Input selected	Change in input	Change in fair value of investments (£m)	Change in NAV (pence per share)
Revenue multiple	Popsa Holdings Ltd	EV/Sales multiple	1.80	+0.2x	+0.2	+0.10
				-0.2x	-0.2	-0.10

The Board and the Investment Manager believe that the valuations as at 30 November 2025 reflect the most reasonable assumptions at that date, giving due regard to all information available from each portfolio company.

All capital gains or losses on investments are classified at FVTPL. Given the nature of the Company's venture capital investments, the changes in fair value of such investments recognised in these financial statements are not considered to be readily convertible to cash in full at the balance sheet date and accordingly these gains are treated as holding gains or losses.

There have been no transfers between these classifications in the year (2024: none).

11. Current asset investments, cash and cash equivalents

Accounting policy

For the purpose of the Cash Flow Statement, cash and cash equivalents comprise of cash at bank and money market funds. Cash equivalents are current asset investments which are disposable without curtailing or disrupting the business and are either readily convertible into known amounts of cash at or close to their carrying values or traded in an active market. They are also subject to insignificant risk of valuation changes.

Current asset investments on the Balance Sheet comprise OEICs, which are valued on a FVTPL basis. Gains and losses arising from changes in fair value of investments are recognised as part of the capital return within the Income Statement and allocated to the capital reserve unrealised.

Money market funds are carried at fair value at the latest published price.

Notes to the financial statements continued

The current asset investments are readily convertible into cash at the option of the Company, within seven days. The current asset investments are held for trading, are actively managed and the performance is evaluated in accordance with a documented investment strategy.

Disclosure

As at 30 November 2025 and 30 November 2024, current asset investments, money market funds and cash at bank fall into Level 1 of the fair value hierarchy as defined in the fixed asset investment accounting policy in note 10 above.

	30 November 2025 £'000	30 November 2024 £'000

The capital of the Company is managed in accordance with its investment policy with a view to the achievement of its investment objective as set on page 24. As the Company is registered as an Alternative Investment Fund Manager (AIFM), it is subject to externally imposed capital requirements, namely if the value of assets under management (AUM)

Notes to the financial statements continued

exceeds €250 million then an additional amount of Company funds equal to 0.02% of the excess over €250 million (subject to a cap of €10 million capital requirement) will be required.

During the year the Company repurchased the following shares to be cancelled:

Date	Number of shares	Price per share (p)	Total cost of shares repurchased (£)
17 December 2024	560,613	39.1	219,000
30 January 2025	802,694	38.4	308,000
20 February 2025	544,996	38.5	210,000
20 March 2025	782,359	37.2	291,000
16 April 2025	748,800	35.7	267,000
15 May 2025	347,918	35.5	123,000
19 June 2025	360,462	37.3	134,000
17 July 2025	579,561	37.5	217,000
21 August 2025	1,089,507	36.3	395,000
25 September 2025	640,016	36.7	235,000
23 October 2025	887,052	36.4	323,000
20 November 2025	1,464,844	34.7	508,000
Totals	8,808,822		3,230,000

The total nominal value of the shares repurchased for cancellation was £881 representing 4% of the issued share capital (2024: 5,783,439 shares with a nominal value of £578 representing 3% of the issued share capital).

¹ Shares issued as a result of reduced adviser charges.

² Shares issued under the Dividend Reinvestment Scheme (DRIS).

The Company issued the following shares during the year:

Date	Number of shares	Price per share (p)	Net proceeds of shares issued (£)
12 December 2024	5,310,639	40.3	2,140,000
23 January 2025	2,927,288	40.1	1,173,000
27 March 2025	11,099,900	38.5	4,273,000
22 May 2025 ¹	39,658	37.6	15,000
29 May 2025 ²	1,861,793	37.7	702,000
27 November 2025 ²	1,922,614	35.9	690,000
Totals	23,161,892		8,993,000

Excluding the value of shares issued under the DRIS, the total value of shares issued net of share issue costs was £7,601,000 (2024: £8,261,000). This is shown in the Cash Flow Statement.

Notes to the financial statements continued

15. Reconciliation of movements in equity

Notes	30 November 2025 £'000	30 November 2024 £'000
Shareholders' funds at start of year	79,062	84,690
Total comprehensive profit/(loss)	167	(399)
Share capital bought back	14	(2,533)
Issue of shares (net of issue costs)	14	10,713
Dividends paid	7	(13,409)
Shareholders' funds at end of year	77,423	79,062

Included within these reserves is an amount of £64,433,000 (2024: £60,845,000) which is considered distributable to shareholders under Companies Act rules. The Income Taxes Act 2007 restricts distribution of capital from reserves created by the conversion of the share premium account into a special distributable reserve until the third anniversary of the share allotment that led to the creation of that part of the share premium account. As at 30 November 2025, £37,346,000 of the special reserve is distributable under this restriction.

During the year there was a share premium cancellation amounting to £14,613,000 (2024: £12,015,000). This was carried out with the approval of shareholders for the purpose of creating additional distributable reserves.

16. Financial instruments

The Company's financial instruments comprise equity investments, loan notes, OEICs, cash balances, investments in money market funds and debtors and creditors. The Company holds financial assets in accordance with its investment policy of investing mainly in a portfolio of VCT qualifying AIM-traded securities whilst holding a proportion of its assets in cash or near-cash investments in order to provide a reserve of liquidity.

	30 November 2025 £'000	30 November 2024 £'000
Financial assets at fair value through profit or loss		
Fixed asset investments	49,780	57,141

OEICs	9,366	10,146
Total financial assets at fair value through profit or loss	76,044	77,851
Financial assets measured at amortised cost		
Cash at bank	1,617	1,595
Accrued dividends and interest receivable	227	135
Total financial assets measured at amortised cost	1,844	1,730
Financial liabilities measured at amortised cost		
Creditors	488	536
Total financial liabilities measured at amortised cost	488	536

The Company holds six qualifying, unquoted investments; Airnow plc, Hasgrove Limited, Popsa Holdings Limited, Rated People Limited, The Food Marketplace Limited and Alusid Limited. The Company also holds two unquoted loan note investments, held at cost,

Notes to the financial statements continued

in Strip Tinning Holdings plc valued at £600,000 and Haydale plc valued at £200,000. Unquoted investments and loan notes are included in fixed asset investments in the table above.

Fixed and current asset investments (see notes 10 and 11) are initially recognised at FVTPL. For quoted investments this is the bid price. The Directors believe that the fair value of the assets held at the year end is equal to their book value. Unquoted investments are valued in accordance with IPEV guidelines.

The Company's creditors and debtors are initially recognised at fair value which is usually the transaction cost and subsequently measured at amortised cost using the effective interest method.

The fair value of all other financial assets and liabilities is represented by their carrying value in the balance sheet. The Directors believe that the fair value of the assets held at the year end is equal to their book value.

17. Financial risk management

In carrying on its investment activities, the Company is exposed to various types of risk associated with the financial instruments and markets in which it invests. The most significant types of financial risk facing the Company are market risk, interest rate risk, credit risk and liquidity risk. The Company's approach to managing these risks is set out below together with a description of the nature and amount of the financial instruments held at the balance sheet date.

Market risk

The Company's strategy for managing investment risk is determined with regard to the Company's investment objective, as outlined on page 24. The management of market risk is part of the investment management process and is a central feature of venture capital investment. The Company's portfolio is managed in accordance with the policies and procedures described in the Corporate Governance Report on pages 40 to 44, having regard to the possible effects of adverse price movements, and other macroeconomic effects on the market such as economic recession, movement in interest rates, inflation, political instability and rising living costs with the objective of maximising overall returns

to shareholders. Investments in smaller companies, by their nature, usually involve a higher degree of risk than investments in larger companies quoted on a recognised stock exchange, though the risk can be mitigated to a certain extent by diversifying the portfolio across business sectors and asset classes. The overall disposition of the Company's assets is regularly monitored by the Board.

Details of the Company's investment portfolio at the balance sheet date are set out on pages 78 to 83.

By value, 47.2% (2024: 59.7%) of the Company's net assets comprised equity securities listed on the London Stock Exchange, Aquis, NASDAQ or quoted on AIM. In the context of the continued short-term market volatility caused by the unstable economic environment, we have maintained the sensitivity analysis at 20%, consistent with 2024. Therefore, a decrease in the bid price of these securities as at 30 November 2025 would have decreased net assets and the total return for the year by £7,313,000 (2024: £9,435,000 decrease); and an equivalent change in the opposite direction would have increased net assets for the year by the same amount.

OEIC investments comprised 12.1% of the Company's net assets by value (2024: 12.8%). A 20% decrease (2024: 20%) in the price of these securities at 30 November 2025 would have decreased net assets by £1,873,000 (30 November 2024: £2,029,000 decrease); and an equivalent change in the opposite direction would have increased net assets for the year by the same amount.

Unquoted investments comprised 17.1% of the Company's net assets by value (2024: 12.6%). A 20% decrease (2024: 20%) in the multiple used in the valuation of these securities as at 30 November 2025 would have decreased net assets by £2,643,000 (2023: £1,993,000 decrease); and an equivalent change in the opposite direction would have increased net assets for the year by the same amount.

Interest rate risk

Some of the Company's financial assets are interest bearing. As a result, the Company is exposed to fair value interest rate risk due to fluctuations in the prevailing levels of market interest rates.

Notes to the financial statements continued

Floating rate

The Company's floating rate investments comprise cash held on interest bearing money market securities. The benchmark rate which determines the rate of interest receivable on such investments is the bank base rate, which was 4% at 30 November 2025 (2024: 4.75%). The amounts held in floating rate investments at the balance sheet date were as follows:

	30 November 2025 £'000	30 November 2024 £'000
Money market funds	16,898	10,564
	16,898	10,564

A 1% increase in the base rate would increase income receivable from these investments and the total return for the year by £169,000 (2024: £106,000).

Credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Company. The Investment Manager and the Board carry out a regular review of counterparty risk. Where financial assets expose the Company to credit risk, the maximum exposure is represented by their carrying value.

	30 November 2025 £'000	30 November 2024 £'000
Investments in interest bearing instruments	800	800
Cash on deposit	1,617	1,595
Debtors	250	152
Money market funds	16,898	10,564
	19,565	13,111

By value, no individual bank holding or fixed rate note investment exceeded 8% of the Company's net assets at 30 November 2025 (2024: 13%).

The Company's interest-bearing deposit and current accounts are maintained with HSBC and Money Market Funds held with BlackRock, HSBC and JP Morgan. The risk of loss to this balance is deemed to be low due to the historical credit ratings and a current Moody's rating of Aaa (2024: Aaa) for HSBC, JP Morgan and BlackRock Money Market Funds. The Investment Manager has in place a monitoring procedure in respect of counterparty risk which is reviewed on an ongoing basis. Should the credit quality or the financial position of these counterparties deteriorate significantly, the Investment Manager will move the cash holdings to another bank.

Credit risk relating to listed money market securities is mitigated by investing in a portfolio of investment instruments of high credit quality, comprising securities issued by the UK Government and major UK companies and institutions. Credit risk relating to loans to and shares in unquoted companies is considered to be part of market risk.

Those assets of the Company which are traded on recognised stock exchanges are held on the Company's behalf by third party sub-custodians (for example, BlackRock in the case of listed money market securities and Octopus Investments Limited in the case of quoted equity securities). Bankruptcy or insolvency of a custodian could cause the Company's rights with respect to securities held by the custodian to be delayed or limited by bankruptcy proceedings.

Credit risk arising on the sale of investments, accrued dividends and interest receivable is considered to be small due to the short settlement and the contracted agreements in place with the settlement lawyers.

Liquidity risk

The Company's financial assets include investments in AIM-traded companies, which by their nature involve a higher degree of risk than investments on the main market, as well as unquoted securities which are not traded on a recognised stock exchange and which generally may be illiquid. As a result, the Company may not be able to realise some of its investments in these instruments quickly at an amount close to their fair value in order to meet its liquidity requirements, or to respond to specific events such as deterioration in the creditworthiness of any particular issuer.

Notes to the financial statements continued

The Company's listed money market securities are considered to be readily realisable as they are of high credit quality as outlined above.

The Company's OEIC investments are considered to be readily realisable as under the terms of the product funds can be withdrawn at any point and received within seven working days. There is a risk that the value of the investment will fall, but this is monitored continually by the Investment Manager.

The Company's liquidity risk is managed on a continuing basis by the Investment Manager in accordance with policies and procedures laid down by the Board. The Company's overall liquidity risks are monitored on a quarterly basis by the Board.

The Company maintains sufficient investments in cash and readily realisable securities to pay accounts payable and accrued expenses. At 30 November 2025 these investments were valued at £27,881,000 (2024: £22,305,000). The Company has no debt, therefore no maturity analysis is required as all financial liabilities fall due within twelve months.

18. Events after the end of the reporting period

The following events occurred between the balance sheet date and the signing of these financial statements:

- a full disposal of 169,514 shares in Hasgrove Limited for total consideration of £9,419,893.

The following shares have been bought back since the year end:

- 18 December 2025: 1,968,953 shares at a price of 35.37p per share.
- 22 January 2026: 1,455,988 shares at a price of 36.17p per share.
- 19 February 2026: 877,140 shares at a price of 35.47p per share.

19. Contingencies, guarantees and financial commitments

There were no contingencies, guarantees or financial commitments as at 30 November 2025 (2024: nil).

20. Transactions with the Investment Manager

The Company has employed Octopus Investments Limited ('Octopus' or 'the Investment Manager') throughout the period as Investment Manager. Octopus has also been appointed as Custodian of the Company's investments under a Custodian Agreement. The Company has been charged £1,303,000 by Octopus as a management fee in the year to 30 November 2025 (2024: £1,411,000). The management fee is payable quarterly and is based on 2% of net assets at quarterly intervals.

The Company receives a reduction in the management fee for the investments in other Octopus managed funds, being the Multi Cap Income Fund, Micro Cap Growth Fund and Future Generations Fund, to ensure the Company is not double charged on these products. This amounted to £54,000 in the year to 30 November 2025 (2024: £55,000). For further details please refer to note 3. Details of amounts invested in Octopus managed funds can be found in note 11.

21. Related party transactions

Details of the Directors, their remuneration and shareholdings can be found in the Directors' Remuneration Report on pages 47 to 49.

VCT regulation

There have been no changes to the VCT regulations since the publication of the previous audited accounts. A recent change was the extension of the VCT 'sunset clause' to 2035, announced in the 2023 Autumn Statement.

In addition, the 2025 Budget introduced a package of reforms to the Venture Capital Trust regime, effective from 6 April 2026, aimed at enabling VCTs to support larger, more established growth companies. The principal measures are summarised below:

- Upfront income tax relief on new VCT subscriptions will reduce from 30% to 20%;
- The annual investment limit for qualifying companies will increase to £10 million, or £20 million for knowledge-intensive companies;
- The lifetime investment limit will increase to £24 million, or £40 million for knowledge-intensive companies; and
- The gross asset limits will increase to £30 million pre-investment and £35 million post-investment.

Current Qualifying Requirements

Under the existing rules, companies must meet the following conditions to qualify for VCT investment:

- fewer than 250 full-time equivalent employees;
- gross assets of less than £15 million at the time of investment and no more than £16 million immediately afterwards;
- generally less than seven years from first commercial sale (or ten years for knowledge-intensive companies) when raising VCT/state-aided funds for the first time;

- receipt of no more than £5 million of state-aided funding in the previous twelve months (£10 million for knowledge-intensive companies) and no more than £12 million in total (£20 million for knowledge-intensive companies); and
- a business plan demonstrating that capital is being raised for growth and development.

Ongoing VCT Conditions

In addition to the qualifying-company criteria, VCTs must comply with the following ongoing requirements:

- 30% of funds raised must be invested in qualifying holdings within twelve months of the end of the accounting period in which the shares were issued; and
- at least 80% of the Company's portfolio (measured at HMRC value) must be invested in qualifying holdings.

Octopus AIM VCT 2 plc was launched as Close IHT AIM VCT plc in March 2006 and raised £25 million through an offer for subscription. On 12 August 2010 the Company acquired the assets and liabilities of Octopus Third AIM VCT plc (formerly Octopus Second AIM VCT plc) ('the merger') and changed its name from Octopus IHT AIM VCT plc to Octopus Second AIM VCT plc. Shareholders of Octopus Third AIM VCT plc received 0.48356191 Ordinary shares in the Company for each Ordinary share they had prior to the merger. On 30 January 2015, the Company name changed to Octopus AIM VCT 2 plc.

An offer, launched on 6 February 2012 and which closed on 5 April 2012, raised £1.3 million for the Company. An offer launched on 25 April 2012, closed on 31 July 2012 and raised

a further £0.5 million for the Company. An Enhanced Buyback Facility opened on 23 October 2012 and closed on 28 December 2012. 10,470,985 existing shares were tendered and 9,974,094 new shares were issued.

An offer for subscription of up to £10 million, which opened on 1 February 2013 and closed on 17 January 2014, raised £5.9 million. Since the company has raised additional investment through further fundraising as follows:

- Combined total up to £12.1 million with a £4 million over-allotment facility was launched alongside Octopus AIM VCT during the year to 30 November 2014;
- Combined total up to £8 million with a £4 million over-allotment facility was launched alongside Octopus AIM VCT during the year to 30 November 2016;
- Combined total up to £14.3 million with a £4 million over-allotment facility was launched alongside Octopus AIM VCT during the year to 30 November 2017;
- Combined total up to £20 million with a £10 million over-allotment facility was launched alongside Octopus AIM VCT during the year to 30 November 2018;
- Combined total up to £20 million with a £10 million over-allotment facility was launched alongside Octopus AIM VCT during the year to 30 November 2019;
- Combined total up to £20 million with a £10 million over-allotment facility was launched alongside Octopus AIM VCT during the year to 30 November 2020;
- Combined total up to £20 million with a £10 million over-allotment facility was launched alongside Octopus AIM VCT during the year to 30 November 2021;

Information and contact details continued

- Combined total up to £20 million with a £10 million over-allotment facility was launched alongside Octopus AIM VCT during the year to 30 November 2022;
- Combined total up to £20 million with a £10 million over-allotment facility was launched alongside Octopus AIM VCT during the year to 30 November 2023; and
- Combined total up to £20 million with a £10 million over-allotment facility was launched alongside Octopus AIM VCT during the year to 30 November 2024.
- Combined total up to £30 million with a £30 million over-allotment facility was launched alongside Octopus AIM VCT during the year to 30 November 2026.

About VCTs

VCTs were introduced in the Finance Act 1995 to provide a means for private individuals to invest in unlisted companies in the UK. Subsequent Finance Acts have introduced changes to VCT legislation. The tax benefits currently available to eligible new investors in VCTs include:

- up to 30% up-front income tax relief;
- exemption from income tax on dividends paid; and
- exemption from capital gains tax on disposals of shares in VCTs.

The Company has been approved as a VCT by HMRC. In order to maintain its approval, the Company must comply with certain requirements on a continuing basis including the provisions of chapter 3 of the Income Tax Act 2007, in particular s280A:

- at least 80% of the Company's investments must comprise 'qualifying holdings' (as defined in the legislation);

- at least 70% of the qualifying holdings must be invested into Ordinary shares with no preferential rights (30% for funds invested before 6 April 2011);
- no single investment made can exceed 15% of the total Company value at the time of investment; and
- a minimum of 10% of each qualifying investment must be in Ordinary shares with no preferential rights.

Dividends

Dividends will be paid by the registrar on behalf of the Company. Shareholders who wish to have dividends paid directly into their bank account rather than by cheque to their registered address can complete a mandate form for this purpose or complete an instruction electronically by visiting the Computershare Investor Centre at: www-uk.computershare.com/investor/.

Queries relating to dividends, shareholdings or requests for mandate forms should be directed to Computershare by calling **0370 703 6326** (calls are charged at the standard geographic rate and will vary by provider. Calls from outside the United Kingdom will be charged at the applicable international rate. Lines are open Monday-Friday 9.00am-5.30pm), or by writing to them at:

The Registrar
Computershare Investor Services PLC
The Pavilions
Bridgwater Road
Bristol BS99 6ZZ

Dividend Reinvestment Scheme (DRIS)

The Company established a DRIS in 2014, under which shareholders are given the opportunity to automatically

reinvest future dividend payments by subscribing for new Ordinary shares. This allows participating shareholders to reinvest the growth in their shareholdings and, subject to personal circumstances, benefit from additional income tax reliefs.

Any shareholder wishing to reinvest their dividends can request a DRIS instruction form by calling Computershare on **0370 703 6326** or complete an instruction electronically by visiting the Computershare Investor Centre at: www-uk.computershare.com/investor/. The application form and rules can also be found in the Document Library on the Octopus website: www.octopusinvestments.com/investor/our-products/venture-capital-trusts/octopus-aim-vcts/.

Share price

The Company's share price can be found on various financial websites including www.londonstockexchange.com, with the following TIDM/EPIC code:

Ordinary shares	
TIDM/EPIC code	OSEC
Latest share price 2 March 2026	35.0 pence per share

Buying and selling shares

The Company's Ordinary shares can be bought and sold in the same way as any other company quoted on the London Stock Exchange via a stockbroker. There may be tax implications in respect of selling all or part of your holdings, so shareholders should contact their independent financial adviser if they have any queries.

Information and contact details continued

Buyback of shares

The Company operates a policy of buying its own shares for cancellation as they become available, and envisages that purchases will be made at up to a 5% discount to the prevailing NAV. The Company is, however, unable to buy back shares directly from shareholders. If you are considering selling your shares or trading in the secondary market, please contact Panmure Liberum Limited, the Company's broker.

Panmure Liberum Limited is able to provide details of close periods (when the Company is prohibited from buying in shares) and details of the price at which the Company has bought its shares. Panmure Liberum Limited can be contacted as follows:

Chris Lloyd 020 7886 2716
chris.lloyd@panmureliberum.com

Paul Nolan 020 7886 2717
paul.nolan@panmureliberum.com

Secondary market

UK income tax payers, aged 18 or over, can purchase shares in the secondary market and benefit from:

- tax-free dividends;
- realised gains not being subject to capital gains tax (although any realised losses are not allowable);
- no minimum holding period; and
- no need to include VCT dividends in annual tax returns.

The UK tax treatment of VCTs is on a first in and first out basis and therefore tax advice should be obtained before shareholders dispose of their shares.

Notification of change of address

Communications with shareholders are mailed to the registered address held on the share register. In the event of a change of address or other amendment, this should be notified to the Company's registrar, Computershare, under the signature of the registered holder or via the Computershare Investor Centre at: www-uk.computershare.com/investor/. Computershare's contact details are provided on page 88.

Other information for shareholders

Previously published annual reports and half-yearly reports are available for viewing on the Investment Manager's website at <https://octopusinvestments.com/our-products/venture-capital-trusts/octopus-aim-vcts/shareholder-information/> by navigating to Products, Venture Capital Trusts, Octopus AIM VCTs, Shareholder Information. If your shares are held via a nominee company, you won't receive communications regarding annual reports and half-yearly reports directly from us or the Registrars. You'll need to speak to your nominee company about this or you can find latest published reports on the Investment Manager's website. Other statutory information about the Company can also be found on this page.

Electronic communications

We also publish reports and accounts and all other correspondence electronically. This cuts the cost of print and reduces the impact on the environment. If, in future, you would prefer to receive an email telling you a report is available to view or to receive documents by email, please contact Octopus on **0800 316 2295** or Computershare on

0370 703 6326. Alternatively you can sign up to receive e-communications via the Computershare Investor Centre at: www-uk.computershare.com/investor/.

Warning to shareholders

Many companies are aware that their shareholders have received unsolicited phone calls or correspondence concerning investment matters. These are typically from overseas based 'brokers' who target UK shareholders offering to sell them what often turn out to be worthless or high risk shares in US or UK investments. They can be very persistent and extremely persuasive. Shareholders are therefore advised to be wary of any unsolicited advice, offer to buy shares at a discount or offer for free Company reports.

Please note that it is very unlikely that either the Company, Octopus or the Registrar would make unsolicited telephone calls to shareholders and that any such calls would relate only to official documentation already circulated to shareholders and would never be in respect of investment advice.

If you are in any doubt about the authenticity of an unsolicited phone call, please call Octopus on **0800 316 2295**.

The Financial Conduct Authority have also issued guidelines on how to avoid share fraud and further information can be found on their website: www.fca.org.uk/consumers/scams/investment-scams/share-fraud-and-boiler-room-scams. You can report any share fraud to them by calling **0800 111 6768**.

Glossary of terms

Alternative performance measure (APM)

A financial measure of historical or future financial performance, financial position or cash flows, other than a financial measure defined or specified in the applicable financial reporting framework. These APMs will help shareholders to understand and assess the Company's progress. A number of terms within this glossary have been identified as APMs.

Net asset value or NAV

The value of the VCT's total assets less liabilities. It is equal to the total shareholders' funds.

Net asset value per share or NAV per share

The NAV per share of the Company is the sum of the underlying assets less the liabilities of the Company divided by the total number of shares in issue.

Ongoing Charges Ratio (APM)

The Ongoing Charges ratio has been calculated using the AIC recommended methodology and excludes exceptional costs and trail commission. The figure shows the annual percentage reduction in shareholder returns as a result of recurring operational expenses. It informs shareholders of the likely costs that will be incurred in managing the Company in the future.

This is calculated by dividing the expenses of £1,823,000 which includes the management fee in note 3 on page 66 and the expenses listed out in note 4 on page 67 excluding irrecoverable VAT, exceptional costs and trail commission, by average net assets of £80,325,000.

Total return (APM)

Total return is calculated as movement in NAV per share in the period plus dividends paid in the period. Total return per share enables shareholders to evaluate more clearly the performance of the Company, as it reflects the underlying value of the portfolio at the reporting date.

Total return % (APM)

Total return % is calculated as movement in NAV per share in the period plus dividends paid in the period, divided by the NAV per share at the beginning of the period. Total return % on the NAV per share enables shareholders to evaluate more clearly the performance of the Company, as it reflects the underlying value of the portfolio at the reporting date.

Dividend yield (APM)

Dividend yield is calculated as dividends paid in the period divided by the prior year closing share price.

Money Market Fund (MMF)

A mutual fund that invests in highly liquid, short term instruments. These instruments include cash, cash equivalent securities, and high credit rating debt based securities with a short term maturity. They are intended to offer investors high liquidity with a low level of risk.

Open Ended Investment Company (OEIC)

A type of investment fund that invests in equities, bonds and other securities. The price of the shares is based on the underlying assets of the fund. These are highly liquid as new shares can be created to meet investor demand and the fund will cancel shares of investors who exit the fund.

Notice of Annual General Meeting

Notice is hereby given that the Annual General Meeting of Octopus AIM VCT 2 plc will be held at 33 Holborn, London, EC1N 2HT on 19 May 2026 at 10.30am for the purposes of considering, and if thought fit, passing the following resolutions of which Resolutions 1 to 9 and 14 will be proposed as Ordinary Resolutions and Resolutions 10 to 13 will be proposed as Special Resolutions:

Ordinary Business

1. To receive and adopt the annual report and audited financial statements for the year to 30 November 2025.
2. To approve a final dividend of 1.8p per Ordinary share.
3. To approve the Directors' Remuneration Policy.
4. To approve the Directors' Remuneration Report.
5. To re-elect Andrew Raynor as a Director.
6. To re-elect Virginia (Connelly) Bull as a Director.
7. To re-appoint BDO LLP as auditor of the Company in accordance with section 489 of the Companies Act 2006 (the 'Act'), until the conclusion of the next general meeting of the Company at which audited accounts are laid before members, and to authorise the Directors to determine their remuneration.

Special Business

To consider and if thought fit, pass Resolutions 8 to 9 and 14 as Ordinary Resolutions and Resolutions 10 to 13, as Special Resolutions:

8. Authority to allot relevant securities

THAT, in addition to existing authorities, the Directors

be and are generally and unconditionally authorised in accordance with s551 of the Act to exercise all the powers of the Company to allot shares in the Company up to a maximum nominal amount of £4,109 (representing approximately 20% of the Ordinary share capital in issue at the date of this Notice) such authority to expire at the earlier of the conclusion of the Company's next AGM following the passing of this Resolution and the expiry of 15 months from the passing of this Resolution (unless previously renewed, varied or revoked by the Company in a general meeting) but so that such authority allows the Company to make offers or agreements before the expiry thereof, which would or might require relevant securities to be allotted after the expiry of such authority.

9. Authority to allot relevant securities under the DRIS

THAT, in addition to existing authorities, the Directors of the Company be and hereby are generally and unconditionally authorised in accordance with Section 551 of the Act to exercise all the powers of the Company to allot shares in the Company up to a maximum nominal amount of £1,027 in connection with the Company's dividend reinvestment scheme (representing approximately 5% of the Ordinary share capital in issue as at the date of this Notice) provided that the authority conferred by this Resolution shall expire on the date falling 15 months from the date of the passing of this Resolution (unless previously renewed, varied or revoked by the Company in general meeting) save that this authority shall allow the Company to make, before the expiry of this authority, any offers or agreements which would or might require Shares to be allotted or rights to be granted after such expiry and the Directors may

allot Shares in pursuance of any such offer or agreement notwithstanding the expiry of such authority.

10. Empowerment to make allotments of equity securities

THAT, conditional upon the passing of Resolution 8 above, and in addition to existing authorities, the Directors of the Company be and are hereby empowered pursuant to s571 of the Act to allot or make offers or agreements to allot equity securities (as defined in s560(1) of the Act) for cash pursuant to the authority granted by Resolution 8 as if s561 of the Act did not apply to any such allotment and so that:

- (a) reference to allotment of equity securities in this Resolution shall be construed in accordance with s560(2) of the Act; and
- (b) the power conferred by this Resolution shall enable the Company to make any offer or agreement before the expiry of the said power which would or might require equity securities to be allotted after the expiry of the said power and the Directors may allot equity securities in pursuance of such offer or agreement notwithstanding the expiry of such power.

The power provided by this Resolution shall expire on the earlier of the conclusion of the Company's next AGM following the passing of this Resolution and the date falling 15 months from the date of the passing of this Resolution (unless previously renewed, varied or revoked by the Company in a general meeting).

Notice of Annual General Meeting continued

11. Empowerment to make allotments of equity securities under the DRIS

THAT, conditional upon the passing of Resolution 9 above and in addition to existing authorities, the directors of the Company be and hereby are empowered pursuant to Section 571 of the Act to allot or make offers or agreements to allot equity securities (which expression shall have the meaning ascribed to it in Section 560(1) of the Act) for cash pursuant to the authority granted by Resolution 9 above, as if Section 561 of the Act did not apply to any such allotment and so that:

- (a) reference to allotment of equity securities in this Resolution shall be construed in accordance with Section 560(2) of the Act; and
- (b) the power conferred by this Resolution shall enable the Company to make any offer or agreement before the expiry of the said power which would or might require equity securities to be allotted after the expiry of the said power and the Directors may allot equity securities in pursuance of any such offer or agreement notwithstanding the expiry of such power.

The power provided by this Resolution shall expire on the date falling 15 months from the date of the passing of this Resolution (unless previously renewed, varied or revoked by the Company in general meeting).

12. Authority to make market purchases

THAT, in addition to existing authorities, the Company be and is hereby generally and unconditionally authorised to make market purchases (within the meaning of s693(4) of the Act) of Ordinary shares of 0.01p each in the Company ('Ordinary shares') provided that:

- (a) the maximum number of Ordinary shares so authorised to be purchased shall not exceed 30,797,597 Ordinary shares, representing approximately 14.99% of the Company's issued share capital at the date of this Notice;
- (b) the minimum price which may be paid for an Ordinary share shall be its nominal value;
- (c) the maximum price, exclusive of expenses, which may be paid for an Ordinary share is an amount equal to the higher of (i) 105% of the average of the middle market quotation for an Ordinary share taken from the London Stock Exchange Daily Official List for the five business days immediately preceding the day on which the Ordinary share is contracted to be purchased; and (ii) the amount stipulated by Article 5(6) of the Market Abuse Regulation;
- (d) the authority conferred comes to an end at the conclusion of the next AGM of the Company or upon the expiry of 15 months from the passing of this Resolution, whichever is the earlier; and

- (e) that the Company may enter into a contract to purchase its Ordinary shares under this authority prior to the expiry of this authority which would or might be completed wholly or partly after the expiry of this authority.

13. Cancellation of Share Premium Account

THAT, subject to the sanction of the High Court, the amount standing to the credit of the share premium account of the Company, at the date an order is made confirming such cancellation by the Court, be and hereby is cancelled, and the amount by which the share capital is so reduced be credited to a reserve of the Company.

14. Continuation of the Company as a VCT

THAT the Company continue in being as a Venture Capital Trust.

By Order of the Board

Keith Mullins

Chair

3 March 2026

Notice of Annual General Meeting continued

Notes:

- (a) A member entitled to attend and vote at the AGM may appoint one or more proxies to attend and vote on his or her behalf. A proxy need not be a member.
- (b) Pursuant to Regulation 41 of the Uncertificated Securities Regulations 2001, entitlement to attend and vote at the meeting and the number of votes which may be cast thereat will be determined by reference to the Register of Members of the Company at close of business on the day which is two days before the day of the meeting. Changes to entries on the Register of Members after that time shall be disregarded in determining the rights of any person to attend and vote at the meeting.
- (c) A form of proxy is enclosed which, to be effective, must be completed and delivered to the Company's registrars, **Computershare Investor Services PLC, The Pavilions, Bridgwater Road, Bristol, BS99 6ZY** or alternatively, you may register your proxy electronically at **www.investorcentre.co.uk/eproxy**, in each case, so as to be received by no later than 48 hours before the time the AGM is scheduled to begin. To vote electronically, you will be asked to provide your Control Number, Shareholder Reference Number and PIN which are detailed on your proxy form.

Appointment of a proxy, or any CREST proxy instruction (as described in paragraph (d) below) will not preclude a member from subsequently attending and voting at the meeting should he or she choose to do so. This is the only acceptable means by which proxy instructions may be submitted electronically.

- (d) To appoint one or more proxies or to give an instruction to a proxy (whether previously appointed or otherwise) via the CREST system, CREST messages must be received by the issuer's agent (ID number 3RA50) not later than 48 hours (excluding non-working days) before the time appointed for holding the meeting. For this purpose, the time of receipt will be taken to be the time (as determined by the time stamp generated by the CREST system) from which the issuer's agent is able to retrieve the message. After this time any change of instructions to a proxy appointed through CREST should be communicated to the proxy by other means. CREST personal members or other CREST sponsored members, and those CREST members who have appointed voting service provider(s) should contact their CREST sponsor or voting service provider(s) for assistance with appointing proxies via CREST. For further information on CREST procedures, limitations and system timings please refer to the CREST manual. The Company may treat as invalid a proxy appointment sent by CREST in the circumstances set out in Regulation 35(5)(a) of the Uncertificated Securities Regulations 2001.
- (e) Any person receiving a copy of the Notice as a person nominated by a member to enjoy information rights under section 146 of the Companies Act 2006 (a 'Nominated Person') should note that the provisions in Notes (a) and (b) above concerning the appointment of a proxy or proxies to attend the meeting in place of a member, do not apply to a Nominated Person as only shareholders have the right to appoint a proxy. However, a Nominated Person may have a right under

an agreement between the Nominated Person and the member by whom he or she was nominated to be appointed, or to have someone else appointed, as a proxy for the meeting. If a Nominated Person has no such proxy appointment right or does not wish to exercise it, he/she may have a right under such an agreement to give instructions to the member as to the exercise of voting rights at the meeting.

- (f) Section 319A of the Companies Act 2006 requires the Directors to answer any question raised at the AGM which relates to the business of the meeting although no answer need be given (a) if to do so would interfere unduly with the preparation of the meeting or involve disclosure of confidential information; (b) if the answer has already been given on the Company's website; or (c) if it is undesirable in the best interests of the Company or the good order of the meeting.

Questions from our shareholders in relation to the AGM can be sent via email to **AIMVCT2AGM@octopusinvestments.com**. The Company may, however, elect to provide answers to questions raised within a reasonable period of days after the conclusion of the AGM.

- (g) Members satisfying the thresholds in section 527 of the Companies Act 2006 can require the Company to publish a statement on its website setting out any matter relating to (a) the audit of the Company's accounts (including the auditor's report and the conduct of the audit) that are to be laid before the AGM; or (b) any circumstances connected with an auditor of the Company ceasing to

Notice of Annual General Meeting continued

hold office since the last AGM, that the members propose to raise at the meeting. The Company cannot require the members requesting the publication to pay its expenses. Any statement required to be placed on the website must also be sent to the Company's auditors no later than the time it makes its statement available on the website. The business which may be dealt with at the meeting includes any statement that the Company has been required to publish on its website.

- (h) Under sections 338 and 338A Companies Act 2006, members meeting the threshold requirements in those sections have the right to require the Company:
- (i) To give, to members of the Company entitled to receive notice of the meeting, notice of a resolution which may properly be moved and is intended to be moved at the meeting, and/or
 - (ii) To include the business to be dealt with at the meeting any matters (other than a proposed resolution) which may be properly included in the business.

A resolution may properly be moved or a matter may properly be included in the business unless:

- (i) (In the case of a resolution only) it would, if passed, be ineffective (whether by reason of inconsistency with any enactment or the Company's constitution or otherwise);
- (ii) It is defamatory of any person; or
- (iii) It is frivolous or vexatious.

Such a request may be in hard copy form or in electronic form, and must identify the resolution of which notice is to be given or the matter to be included in the business, must be authorised by the person or persons making it, must be received by the Company not later than six weeks before the meeting, and (in the case of a matter to be included in the business only) must be accompanied by a statement setting out the grounds for the request.

- (i) A copy of the Notice of AGM and the information required by Section 311A Companies Act 2006 is included on the Company's website,

www.octopusinvestments.com under VCTs. Copies of the Directors' Letters of Appointment, the Register of Directors' Interests in the Ordinary shares of the Company kept in accordance with the UK Listing Rules and a copy of the Memorandum and Articles of Association of the Company will be available for inspection at the registered office of the Company during usual business hours on any weekday from the date of this notice until the AGM, and at the place of that meeting for at least 15 minutes prior to the commencement of the meeting until its conclusion.

- (j) As at 2 March 2026 (being the last practicable date prior to the publication of this Notice) the Company's issued share capital consists of 205,454,282 Ordinary shares, carrying one vote each. Therefore, the total voting rights in the Company as at 2 March 2026 are 205,454,282.
