FP Octopus UK Future Generations Fund, a sub-fund of FP Octopus Investments UCITS Funds

Class R Accumulation GBP (ISIN GB00BKPC9L48)

The Fund is managed by FundRock Partners Limited.

Objective and investment policy

Objective:

The investment objective of the Fund is to achieve capital growth over rolling five year periods by focussing on investing in companies meeting the Investment Manager's sustainable investment themes.

Policy:

The Fund will make investments in companies:

- which generate a financial return; and
- with business activities which are aligned with sustainability themes and the United Nations Sustainable Development Goals. Investments will be made in shares of companies which fall within the following sustainability themes: building a sustainable planet, empowering people, and revitalising healthcare. The Fund will invest at least 70% (including, to a limited extent, through real estate investment trusts (REITs) and investment companies) in companies that are listed and domiciled in the UK, or incorporated in the UK, or have a significant exposure to the UK (the "UK Conditions"). Under extraordinary market conditions such as political or economic unrest or instability, world events leading to market instability, closure of any UK stock exchange, in the event of materially large inflows to the Fund, or any event which could cause the risk profile of the Fund to be materially increased, the Fund may hold less than 70% of its portfolio in shares of companies meeting the UK Conditions. The Fund may also invest in other asset classes including money market instruments (i.e. debt securities with short-term maturities), and/or cash. The Fund may use derivatives (investments where the value is linked to another investment, or the performance of a stock exchange or to some other variable factor, such as interest rates) for efficient portfolio management. Efficient portfolio management means managing the Fund in a way to reduce risk or cost and/or generate extra income.

Investment Strategy:

Sustainability considerations play a central role in the Investment Manager's active management and stock selection process. The Fund aims to achieve the investment objective in a socially and environmentally sustainable manner by investing in the shares of a company if the Investment Manager, in its discretion, considers that the company's business activities align with United Nations Sustainable Development Goals for current and future generations by contributing to solving a problem or by delivering a desired outcome within a sustainability theme. The sustainability themes are:

- 'Building a sustainable planet' – this focuses on businesses working in areas like sustainable energy generation, energy storage, ecosystem integrity, circular economy and emissions, among others.
- 'Empowering people' – this focuses on businesses which are reimagining the future for society - companies who conduct or contribute to activities such as research, digital infrastructure, improving how we make things, how we communicate, living standards, how we stay secure, how we entertain, and financial inclusion, among others.

• 'Revitalising healthcare' – this focuses on how healthcare systems function, how drugs are discovered and developed, personal health and physical wellness and mental health, among others.

These sustainability themes present key challenges for current and future generations and the Investment Manager believes in investing in companies which have the potential to positively contribute to current and future generations by researching, developing and providing solutions to these challenges.

Further details of the Investment Manager's sustainability strategy and processes can be found at www.octopusinvestments.com.

Benchmark:

• For the purpose of providing comparable indicative returns only, investors should refer to the FTSE All Share Index and IA UK All Companies Sector ("Comparator Benchmarks").

• The Comparator Benchmarks have been chosen by the ACD as they reflect the composition of the Fund and its bias towards investment in UK equities with a primary objective of achieving capital growth.

• The Comparator Benchmarks do not represent, or act as, a constraint in the selection of individual investments in the Fund or the management of the Fund's portfolio.

• The performance of the Fund may deviate materially from the performance of the Comparator Benchmarks.

The Fund is actively managed

Other information:

• You can buy and sell shares between 9am and 5pm on most business days when the London Stock Exchange is open for a full range of services.

• The Fund's base currency is Pounds Sterling.

• We carry out investors' requests, to buy, sell or switch, at midday on each business day (which excludes UK public holidays). If we receive a request after midday, we deal with it on the next business day.

• If you hold accumulation shares, income from investments in the Fund will be rolled up into the value of your shares.

• Investors should note that while the investment objective of the Fund is to achieve capital growth there may be situations in which an income return is also achieved.

• The Fund will be managed in a manner that maintains eligibility for ISAs.

• Recommendation: the Fund may not be appropriate for investors who plan to withdraw their money within five years.

• There can be no guarantee that the objective of the Fund will be achieved.

• On encashment, particularly in the short-term, you may receive less than the original amount invested.

• Charges applicable to the Fund accrue daily, therefore an equivalent rise in the value of shares is required before the original investment can be recovered.

Risk and reward profile

• This indicator above is not a measure of the risk of capital loss, but an estimated measure of the Fund's price movement over time. It is based on historical data, and thus may not be a reliable indication for the future.

• The risk category shown is not guaranteed to remain unchanged and may shift over time.

• The lowest category does not mean 'risk free'.

• The Fund appears as a "6" on the scale. This is because the Fund by its nature invests in the shares of companies, whose values tend to vary more widely.

• The Fund does not provide its investors with any guarantee on performance, nor on monies invested in it.

• In addition to the risk captured by the indicator, the overall Fund value may be considerably affected by the following risks:

• The Fund invests in shares and the value of these investments may go up and down. Investors may not get back the original amount invested.

• The Fund invests in small company securities which may be less liquid than the securities of larger companies. Securities in smaller companies may also involve risks, such as limited product lines, markets and financial or managerial resources and trading such securities may be subject to abrupt price movements than trading in the securities of larger companies.

• Certain securities could become hard to value, sell at a desired time and place, or cease to trade altogether.

• There is a risk that third parties that the Fund enters into investment contracts with will fail to meet their obligations and the Fund may suffer a loss.

• Changes in exchange rates may mean the value of investment goes up and down.

• The Fund may make use of efficient portfolio management techniques to reduce risk and/or costs in the Fund and to produce additional capital or income in the Fund. It is not intended that using derivatives for efficient portfolio management will increase the volatility of the Fund.

• For full details of the Fund's risks please see Section 5 of the Fund's Prospectus, which is available at www.FundRock.com. Charges for this fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

	Class R Acc
Entry charge	0.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested (Entry charge) or before the proceeds of your investment are paid out (Exit charge).

Charges taken from the fund over a year

Ongoing charge	1.40%
----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	-N/A-
-----------------	-------

The entry and exit charges shown are maximum figures. In some cases (including when switching to other funds) you might pay less – you can find out actual entry and exit charges from your financial adviser.

The ongoing charges figure is based on an estimate calculated during the launch phase and may vary from year to year. The ongoing charges figure includes any portfolio transaction costs which the Fund pays to its service providers (e.g. to the Fund's custodian) and any entry/exit charges the Fund pays when buying/ selling units in another fund. In general, however, the figure excludes other portfolio transaction costs. The ongoing charges are taken from investments and not the income these investments produce. Investments in the Fund may be sold to meet ongoing charges and the value of your units would be reduced.

Fee Cap

The ACD currently pays all fees and expenses chargeable to the Fund (other than the Annual Management Charge) so that the ongoing charges figure does not exceed 1.40% for Class R Shares (the "Fee Cap"). Subject to providing 60 days' prior notice to Shareholders, the ACD reserve the right to remove the Fee Cap and if the ACD does so, all costs, charges, fees or expenses payable out of the scheme property of the Fund will be charged to the Fund without reference to the Fee Cap.

For more information about charges please see Section 7 of the Fund's Prospectus, which is available from the administration office of the ACD at FundRock Partners Limited - Octopus, PO Box 10359, Chelmsford, CM99 2AW or, during normal business hours on 01268 44 8634. For more details please see the Supplementary Information Document (SID) which is available at www.FundRock.com or on the above number.
